Album 111 Song 1

Day One Light (Teaching / Poetic / Praise)

Teaching Song - Genesis 1:3–5 — God speaks light into the formless void and separates it from darkness.

Before the dawn, the world was still
Formless waters, dark and deep
Then God spoke across the silence
And the waiting earth awoke from sleep

Let there be light, the heavens heard
Hope was rising with the word

Let there be light
Let there be light
God spoke into the dark of night
Let there be light
Let there be light
And God saw that the light was right

He called the light the day
He called the darkness night
He drew a line between them
And set the hours in their place

Evening came, then morning came
The first day answered to His name

Let there be light
Let there be light
God spoke into the dark of night
Let there be light
Let there be light
And God saw that the light was right

When the road is without a way
When the shadows hide the dawn
The God who spoke the first light
Still speaks, and night is gone

Let there be light
Let there be light
God speaks into the dark of night
Let there be light
Let there be light
And God saw that the light was right

Poetic-First light broke where nothing stood, / Evening, morning, God called good.

Before the wind had a name to carry
Before the dust began to form
A heavy silence, wide and lonely
Waiting for the coming storm
There was no shape to the deep water
There was no map to find the way
Until a word reached out and found us
And turned the dark to open day

First light broke
Where nothing stood
Evening, morning
God called good
First light broke
Where nothing stood
Evening, morning
God called good

He pulled the stars from the velvet pocket
And gave the sun a place to stay
Dividing up the black and white
Before the world was led astray
Now every hill begins to wake up
And every bird begins to fly
It started with a simple promise

A sudden spark across the sky

First light broke
Where nothing stood
Evening, morning
God called good
First light broke
Where nothing stood
Evening, morning
God called good

The earth is breathing in the color
The trees are reaching for the heat
We walk upon the new foundations
With steady ground beneath our feet
There is no end to the beginning
The grace is fresh as morning dew
The story started in the garden
And every hour it starts anew

First light broke
Where nothing stood
Evening, morning
God called good
First light broke
Where nothing stood
Evening, morning
God called good

Praise: Jesus, Light of the world, You are the true light that enlightens every person.

Day one light, breaking through the dark
Jesus, Light of the world
You are the true light
That awakens every heart
You call us from the shadows
You meet us where we are
And every soul can see Your love
Like morning through the dark

Jesus, Light of the world
Shine Your mercy over me
Jesus, true light
You make the blind heart see
No night can hold me
No fear can take Your place
Jesus, Light of the world
I am living in Your grace

When the road is long and lonely
And the night is closing in
You become the lamp before me
You lead me home again
Every person finds a doorway
Every heart can hear Your call

Your light is never fading
Your love is for us all

Open our eyes, Lord
Breathe on our souls
Let all who are searching
Come into Your glow

Jesus, Light of the world
Shine Your mercy over me
Jesus, true light
You make the blind heart see
No night can hold me
No fear can take Your place
Jesus, Light of the world
I am living in Your grace

Day one light, rise in us
Make our hearts a holy flame
Send us out to bear Your kindness
Till the earth knows Jesus' name
Every shadow bows before You
Every broken heart can sing
Jesus, Light of the world
You are everything

Jesus, Light of the world
Shine Your mercy over me

Jesus, true light
You make the blind heart see
No night can hold me
No fear can take Your place
Jesus, Light of the world
I am living in Your grace

Album 111 Song 2

The Expanse Holds No Prism (Scientific / Narrative)

Scientific The Hebrew raqia is an ordered expanse. Observation shows a gaseous atmosphere, not a solid dome or prism.

The Hebrew raqia, an ordered expanse
Drawn wide above us in a breathing dance
We lift our eyes where the blue winds roam
Not a roof of stone, not a ceiling of chrome
Clouds drift through the open air
Light bends softly everywhere
The world is held by a moving sky
A living atmosphere, open and wide

The expanse holds no prism
No solid dome above
Only the breathing atmosphere
And the endless fields of love
The expanse holds no prism
No wall between and beyond
Just the blue, the wind, the stars
And the night they travel on

We measure the pressure, we follow the rain
Watch vapor rise and return again
The horizon curves in a distant glow
While unseen currents carry us below
No crystal canopy seals the day

No hidden colors locked away
Observation speaks in the open light
A gaseous ocean, changing with the night

The expanse holds no prism
No solid dome above
Only the breathing atmosphere
And the endless fields of love
The expanse holds no prism
No wall between and beyond
Just the blue, the wind, the stars
And the night they travel on

Call it ordered, call it wide
Let the ancient word abide
But let the evidence rise and shine
Through every cloud and every line
Meaning can breathe when the heavens unfold
Truth need not harden into gold

The expanse holds no prism
No solid dome above
Only the breathing atmosphere
And the endless fields of love
The expanse holds no prism
No wall between and beyond
Just the blue, the wind, the stars
And the night they travel on

Narrative

On the second day the waters were divided. What we measure today is air, clouds, and open space beyond.

On the second day the waters divide
A wide blue silence opens inside
Above us clouds begin to roam
Below the deep keeps calling home
We lift our eyes to the endless blue
And measure the distance we travel through
The world turns quiet, vast and clear
Air in our lungs, open space near

What we can name, what we can see
Still leaves a horizon beyond belief

The expanse holds no prism
No color can contain
The sky keeps opening wider
Beyond the clouds and rain
We measure air and open space
But wonder still remains
The expanse holds no prism
No color can contain

The waters gathered, the heavens spread
A silver path where the sunlight led

Clouds drift slow like thoughts in flight
Turning the day to a softer light
We draw our lines through the atmosphere
Count every mile till the edge appears
But every answer we bring back home
Reveals a farther unknown

Between the deep and the distant sun
A breath of forever has just begun
No frame can hold it, no hand can stay
The open beyond keeps pulling away

The expanse holds no prism
No color can contain
The sky keeps opening wider
Beyond the clouds and rain
We measure air and open space
But wonder still remains
The expanse holds no prism
No color can contain

Album 111 Song 3

Psalm

He stretches the north over the void / And hangs the earth on nothing (Job 26:7).
No pillars of stone, no hidden supports— / Only His word holding all.

He stretches the north over the void
And hangs the earth on nothing
No pillars of stone beneath the sky
No hidden hands supporting

The silence trembles under His voice
The heavens turn at His command
What looks like nothing holds the world
Held by the word of who I am

Hangs on nothing
Still it does not fall
Hangs on nothing
Held by His word through all
No pillars of stone
No hidden supports
The earth keeps turning
Hangs on nothing

The stars burn bright in the open deep
Like sparks across the darkness
The oceans rise, the mountains stand

By mercy and by purpose

The silence trembles under His voice
The heavens turn at His command
What looks like nothing holds the world
Held by the word of who I am

Hangs on nothing
Still it does not fall
Hangs on nothing
Held by His word through all
No pillars of stone
No hidden supports
The earth keeps turning
Hangs on nothing

So when my ground gives way below
And every sure thing disappears
I will remember what holds the world
His word is stronger than my fear

Hangs on nothing
Still it does not fall
Hangs on nothing
Held by His word through all
No pillars of stone
No hidden supports
The earth keeps turning

Hangs on nothing

Hangs on nothing
Still it does not fall
Hangs on nothing
Held by His word through all
No pillars of stone
No hidden supports
My soul keeps singing
Hangs on nothing

Album 111 Song 4

Proverb - Seven Pillars of Wisdom

Wisdom has built her house; she has hewn her seven pillars (Proverbs 9:1).

Wisdom has built her house
She raised it on the stone
She shaped the beams with patient hands
And made the walls her own

She carved the truth from living wood
She called the weary near
Seven pillars standing strong
A shelter bright and clear

Wisdom has built her house
She has hewn her seven pillars
Wisdom has built her house
And opened wide the doors
Come and rest beneath her roof
Come and learn the way
Seven pillars standing strong
To guide us through the day

No crown of gold above the door
No guard to turn us back
Only a table laid with grace

And light along the path

Let every searching heart come in
Let every restless soul draw near
The house of wisdom still stands firm
Its welcome still is here

Wisdom has built her house
She has hewn her seven pillars
Wisdom has built her house
And opened wide the doors
Come and rest beneath her roof
Come and learn the way
Seven pillars standing strong
To guide us through the day

Haiku - Seven Pillars of Wisdom

Seven pillars stand
In a house of ordered light
Not the stars above
But the shape of wisdom
Set in careful lines
Stone beside the stone
Each truth finds its place
Each silence learns to speak

Completeness in the walls
A steady frame within
No mystery of worlds
Just wisdom gathered in

Seven pillars stand
Seven pillars strong
Completeness is the house
Where every thought belongs
Not cosmology
Not the endless sky
Wisdom's ordered house
Where scattered truths align

Seven pillars rise
Holding more than weight

Measure in the mind
Balance at the gate
Every part made whole
Every word made clear
A house built from knowing
A house that gathers near

No planets turning
No constellations drawn
Only human reason
Keeping watch till dawn
The order is the meaning
The structure is the song
Seven pillars standing
To show where truth belongs

Seven pillars stand
Seven pillars strong
Completeness is the house
Where every thought belongs
Not cosmology
Not the endless sky
Wisdom’s ordered house
Where scattered truths align

Album 111 Song 5

Problematic Song - Flat Disk Broken

They drew an edge and raised a wall
Ships and planes ignored them all
Maps grew quiet beyond the line
While the world kept turning fine

Every warning lost its sound
Every border broke the ground

Flat disk broken, falling through
All the lies we thought were true
Flat disk broken, hear it call
No edge can hold the world at all

They built their towers against the sky
Swore the distant stars would lie
But ships came home from open seas
And planes flew past their boundaries

Now the old wall fades from view
There is more than we once knew
Let the horizon open wide
Let the truth become our guide

Flat disk broken, falling through
All the lies we thought were true
Flat disk broken, hear it call
No edge can hold the world at all

Flat disk broken, falling through
All the lies we thought were true
Flat disk broken, hear it call
No edge can hold the world at all

Holy Jest - Flat Disk Broken

Photos from space, the curve is clear
False disk fades, the sphere is here
Blue in the silence, bright and wide
No edge to find, no wall to hide
Clouds cross oceans, shadows turn
Night meets dawn, the seasons burn
Every horizon bends with light
The world keeps spinning through the night

Holy Jest, the flat disk broke
Truth came shining through the smoke
Holy Jest, let the old lie fall
Round and rising, one world for all

Watch the ships sink, hulls then sails
See distant cities blur through haze
The moon pulls tides along the shore
A measured world, and something more
Stars wheel slowly, pole to pole
Maps unfold, then make us whole
From every window, every flight
The curve returns in morning light

Holy Jest, the flat disk broke
Truth came shining through the smoke
Holy Jest, let the old lie fall

Round and rising, one world for all

No need for walls around the sky
No painted dome above our eyes
The farther we look, the more we know
A living sphere below

Holy Jest, the flat disk broke
Truth came shining through the smoke
Holy Jest, let the old lie fall
Round and rising, one world for all

Album 111 Song 6

Problematic Song - Hollow Claim Empty

Density speaks in layers beneath our feet
Seismic waves return with a buried beat
Gravity bends through the hidden stone
Every deep vibration maps what's known

Polar openings were never found
No empty kingdom under the ground

Hollow claim, empty
The evidence says otherwise
Layered earth beneath us
No void behind the lies
Hollow claim, empty
It falls where the facts resound
Seismic waves and gravity
Show the structure underground

Pressure travels through the inner shell
Echoes rise from where the old myths dwell
A world without a center cannot stand
But weight and motion tell the shape of land

No secret doorway at the poles
No vacant dark below our souls
The claim remains without a ground

When every measured truth comes round

Hollow claim, empty
The evidence says otherwise
Layered earth beneath us
No void behind the lies
Hollow claim, empty
It falls where the facts resound
Seismic waves and gravity
Show the structure underground

Research Song - Hollow Claim Empty

Density speaks in layers deep
Seismic waves reveal the shape
Gravity pulls through every stone
Showing a world with a solid core

Polar openings were never found
No hidden doorway underground
The evidence keeps drawing near
And leaves no hollow center here

Hollow claim, empty ground
No secret void beneath us now
Density, seismic waves, and gravity
Show a layered interior, not a void
Hollow claim, empty sound
The truth is turning all around
The claim remains without a ground
Hollow claim, empty ground

Echoes travel through the deep
Tracing every buried seam
Pressure rises, heat takes hold
A living planet, strong and whole

No passage waits beneath the ice
No unseen kingdom out of sight

When every measure tells the truth
The myth gives way to what we know

Hollow claim, empty ground
No secret void beneath us now
Density, seismic waves, and gravity
Show a layered interior, not a void
Hollow claim, empty sound
The truth is turning all around
The claim remains without a ground
Hollow claim, empty ground

Album 111 Song 7

Scientific Song - Oblate and True

Flattened poles and equator wide
Earth turns daily on its tilted ride
Through the seasons, year by year
A measured world is spinning here

Oblate and true, beneath the blue
The shape of our world comes shining through
Oblate and true, in all we do
From distant stars to the ground we knew

Satellites trace the curving line
Seismic waves reveal the signs
Every orbit, every light
Confirms the shape in measured sight

Oblate and true, beneath the blue
The shape of our world comes shining through
Oblate and true, in all we do
From distant stars to the ground we knew

Not a perfect sphere alone
But a living world we call our home
Spin and gravity leave their clue
A wider waist, oblate and true

Oblate and true, beneath the blue
The shape of our world comes shining through
Oblate and true, in all we do
From distant stars to the ground we knew

Album 111 Song 8

Song of Praise - Jesus, Word Made World

Through Him all things were made (John 1:3).
The ordered earth, the hanging void, / Both declare the Word employed.

Before the dawn, before the flame
The living Word called all by name
Through Him all things were shaped and made
By Him the earth's foundations laid

Jesus, Word who made the world
Heaven's glory now revealed
Every star and stone rejoice
All creation knows Your voice

The ordered earth, the hanging void
Both declare the Word employed
Seas and skies obey Your hand
Life awakens at Your command

You spoke light into the deep
You sustain the worlds You keep
From the dust to stars above
All things bear the mark of love

Jesus, Word who made the world
Heaven's glory now revealed

Every star and stone rejoice
All creation knows Your voice
