Album 51 Song 01

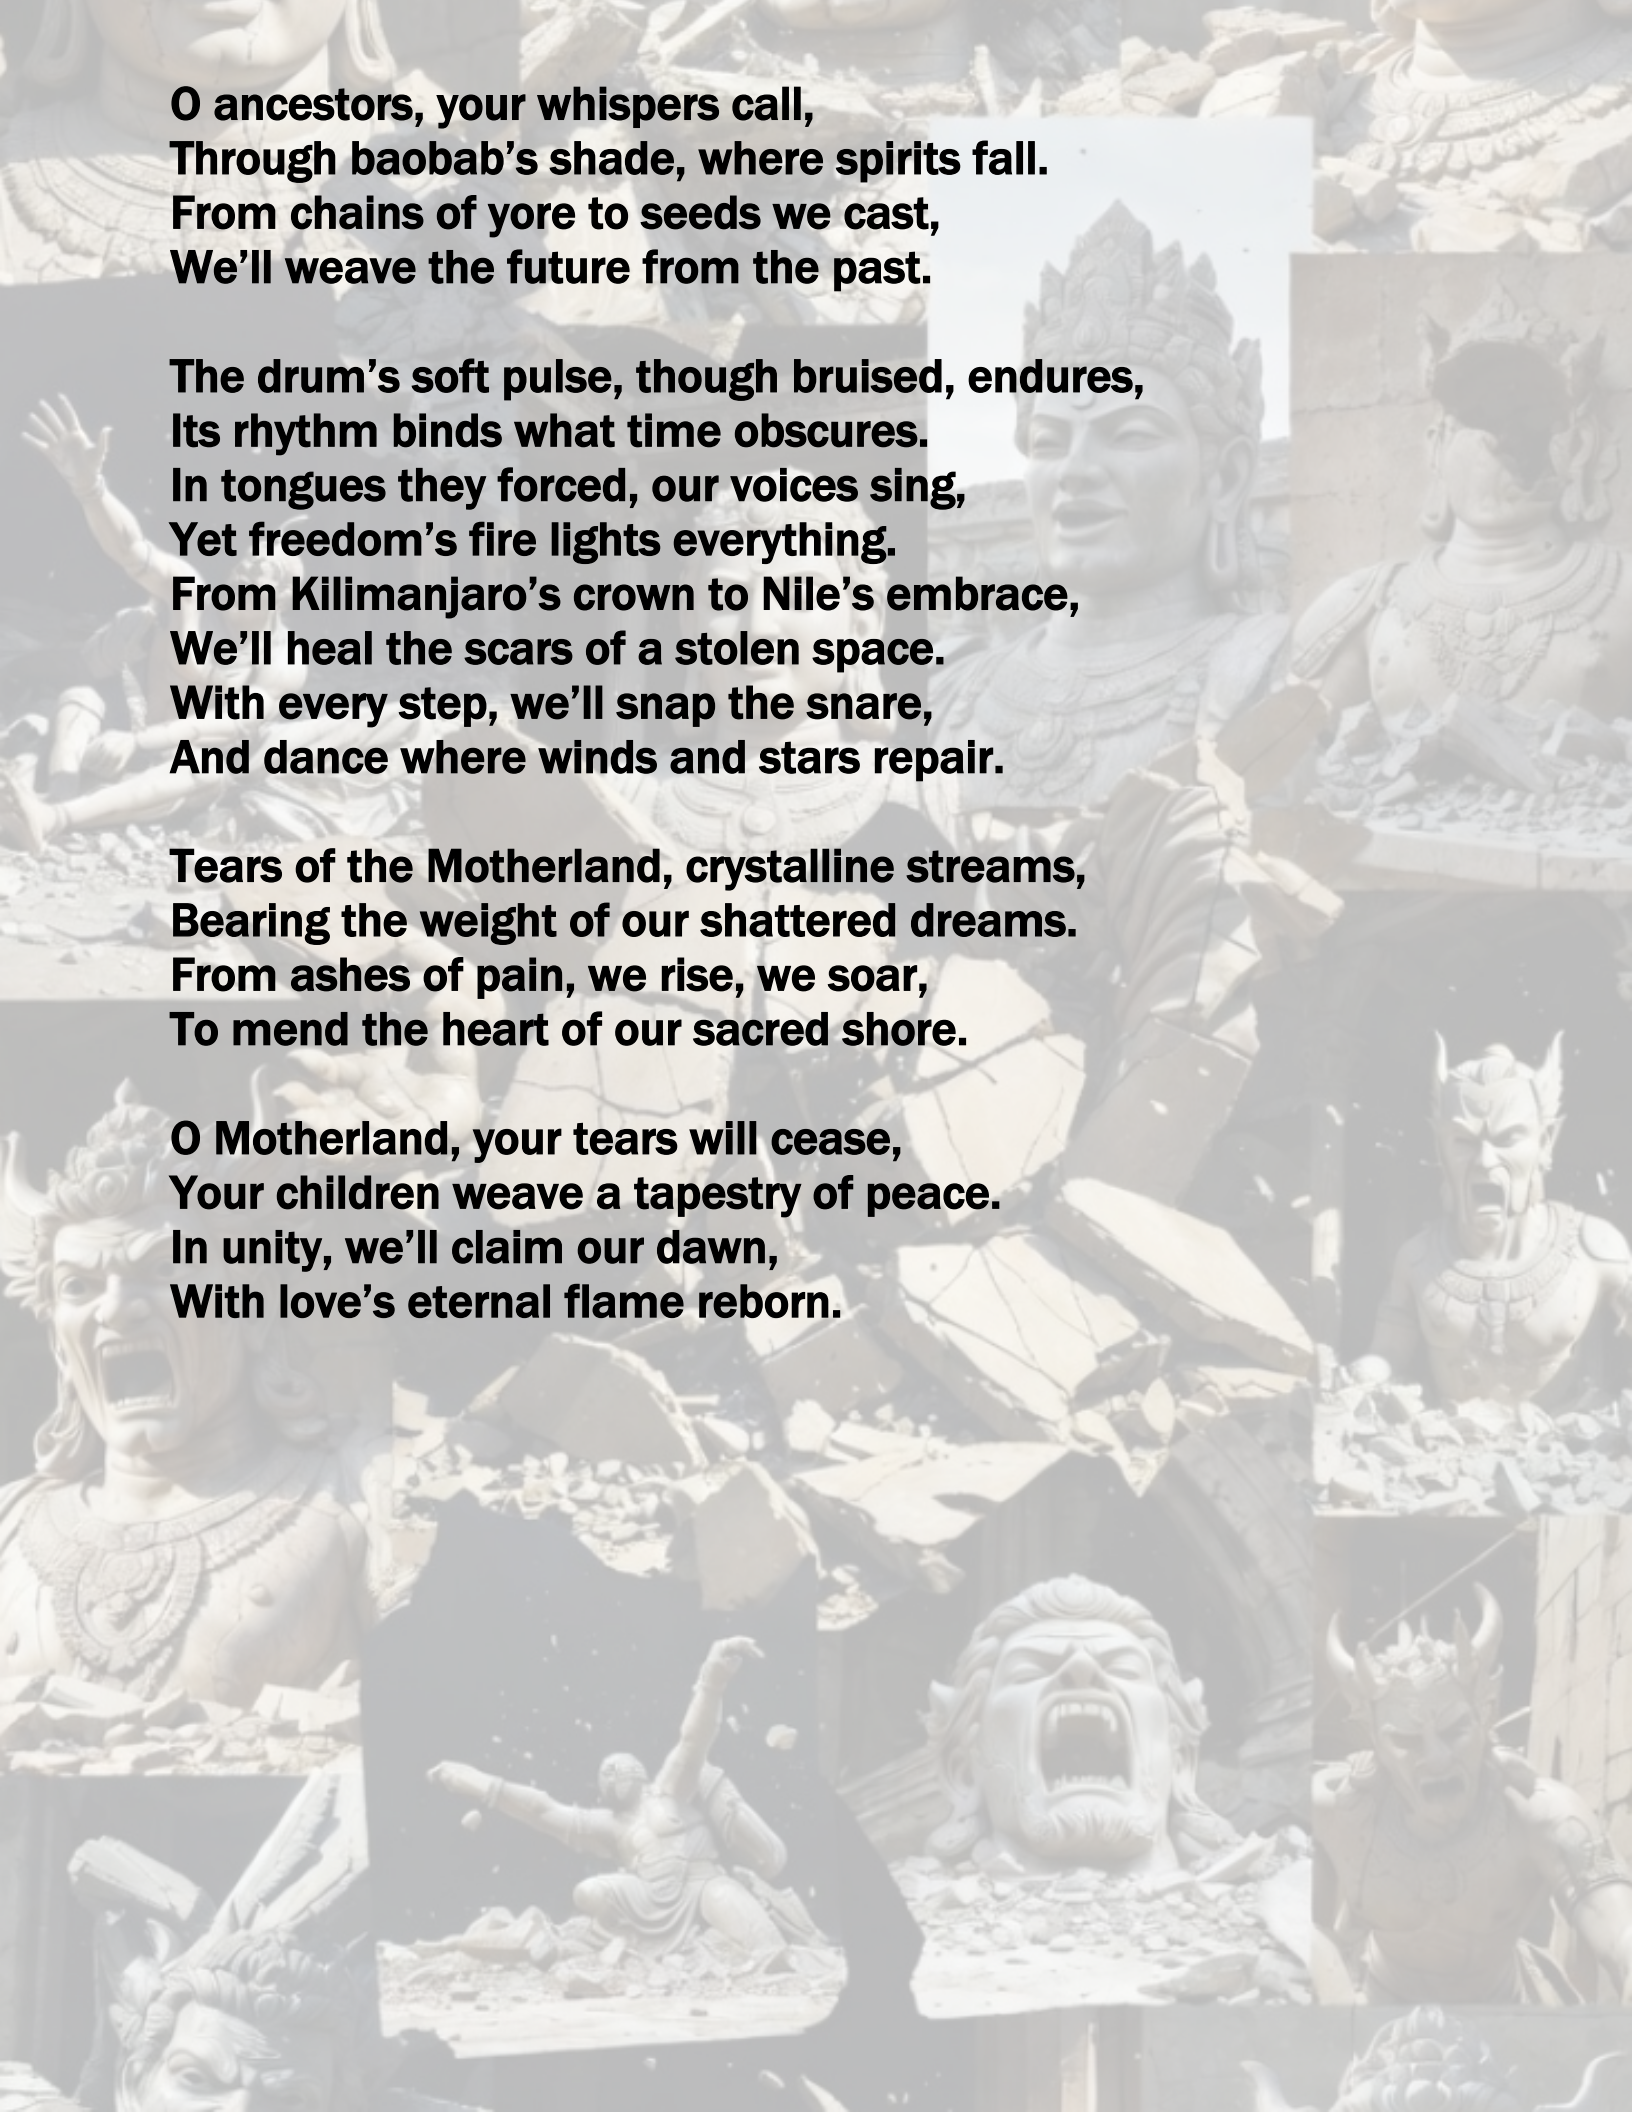

Tears of the Motherland

**O Motherland, your rivers mourn,
Their silver threads by anguish torn.
From shadowed ships, with hearts of frost,
They reaped our souls, our futures lost.
Through ancient groves, their greed did creep,
Plucked gold from earth, left wounds to weep.
Our names unwritten, our songs unstrung,
In their cruel matrix, our stars unhung.**

**Tears of the Motherland, crystalline streams,
Bearing the weight of our shattered dreams.
From ashes of pain, we rise, we soar,
To mend the heart of our sacred shore.**

**They carved their lines through clan and kin,
Sowed seeds of strife where peace had been.
Our fields, once emerald, bled with cries,
Their hunger stole the light from skies.
Our gods were veiled, our drums defiled,
Yet embers glowed in spirits wild.
From Congo's wail to Sahel's stand,
We cradled hope in trembling hands.**

**Tears of the Motherland, crystalline streams,
Bearing the weight of our shattered dreams.
From ashes of pain, we rise, we soar,
To mend the heart of our sacred shore.**

**O ancestors, your whispers call,
Through baobab's shade, where spirits fall.
From chains of yore to seeds we cast,
We'll weave the future from the past.**

**The drum's soft pulse, though bruised, endures,
Its rhythm binds what time obscures.
In tongues they forced, our voices sing,
Yet freedom's fire lights everything.
From Kilimanjaro's crown to Nile's embrace,
We'll heal the scars of a stolen space.
With every step, we'll snap the snare,
And dance where winds and stars repair.**

**Tears of the Motherland, crystalline streams,
Bearing the weight of our shattered dreams.
From ashes of pain, we rise, we soar,
To mend the heart of our sacred shore.**

**O Motherland, your tears will cease,
Your children weave a tapestry of peace.
In unity, we'll claim our dawn,
With love's eternal flame reborn.**

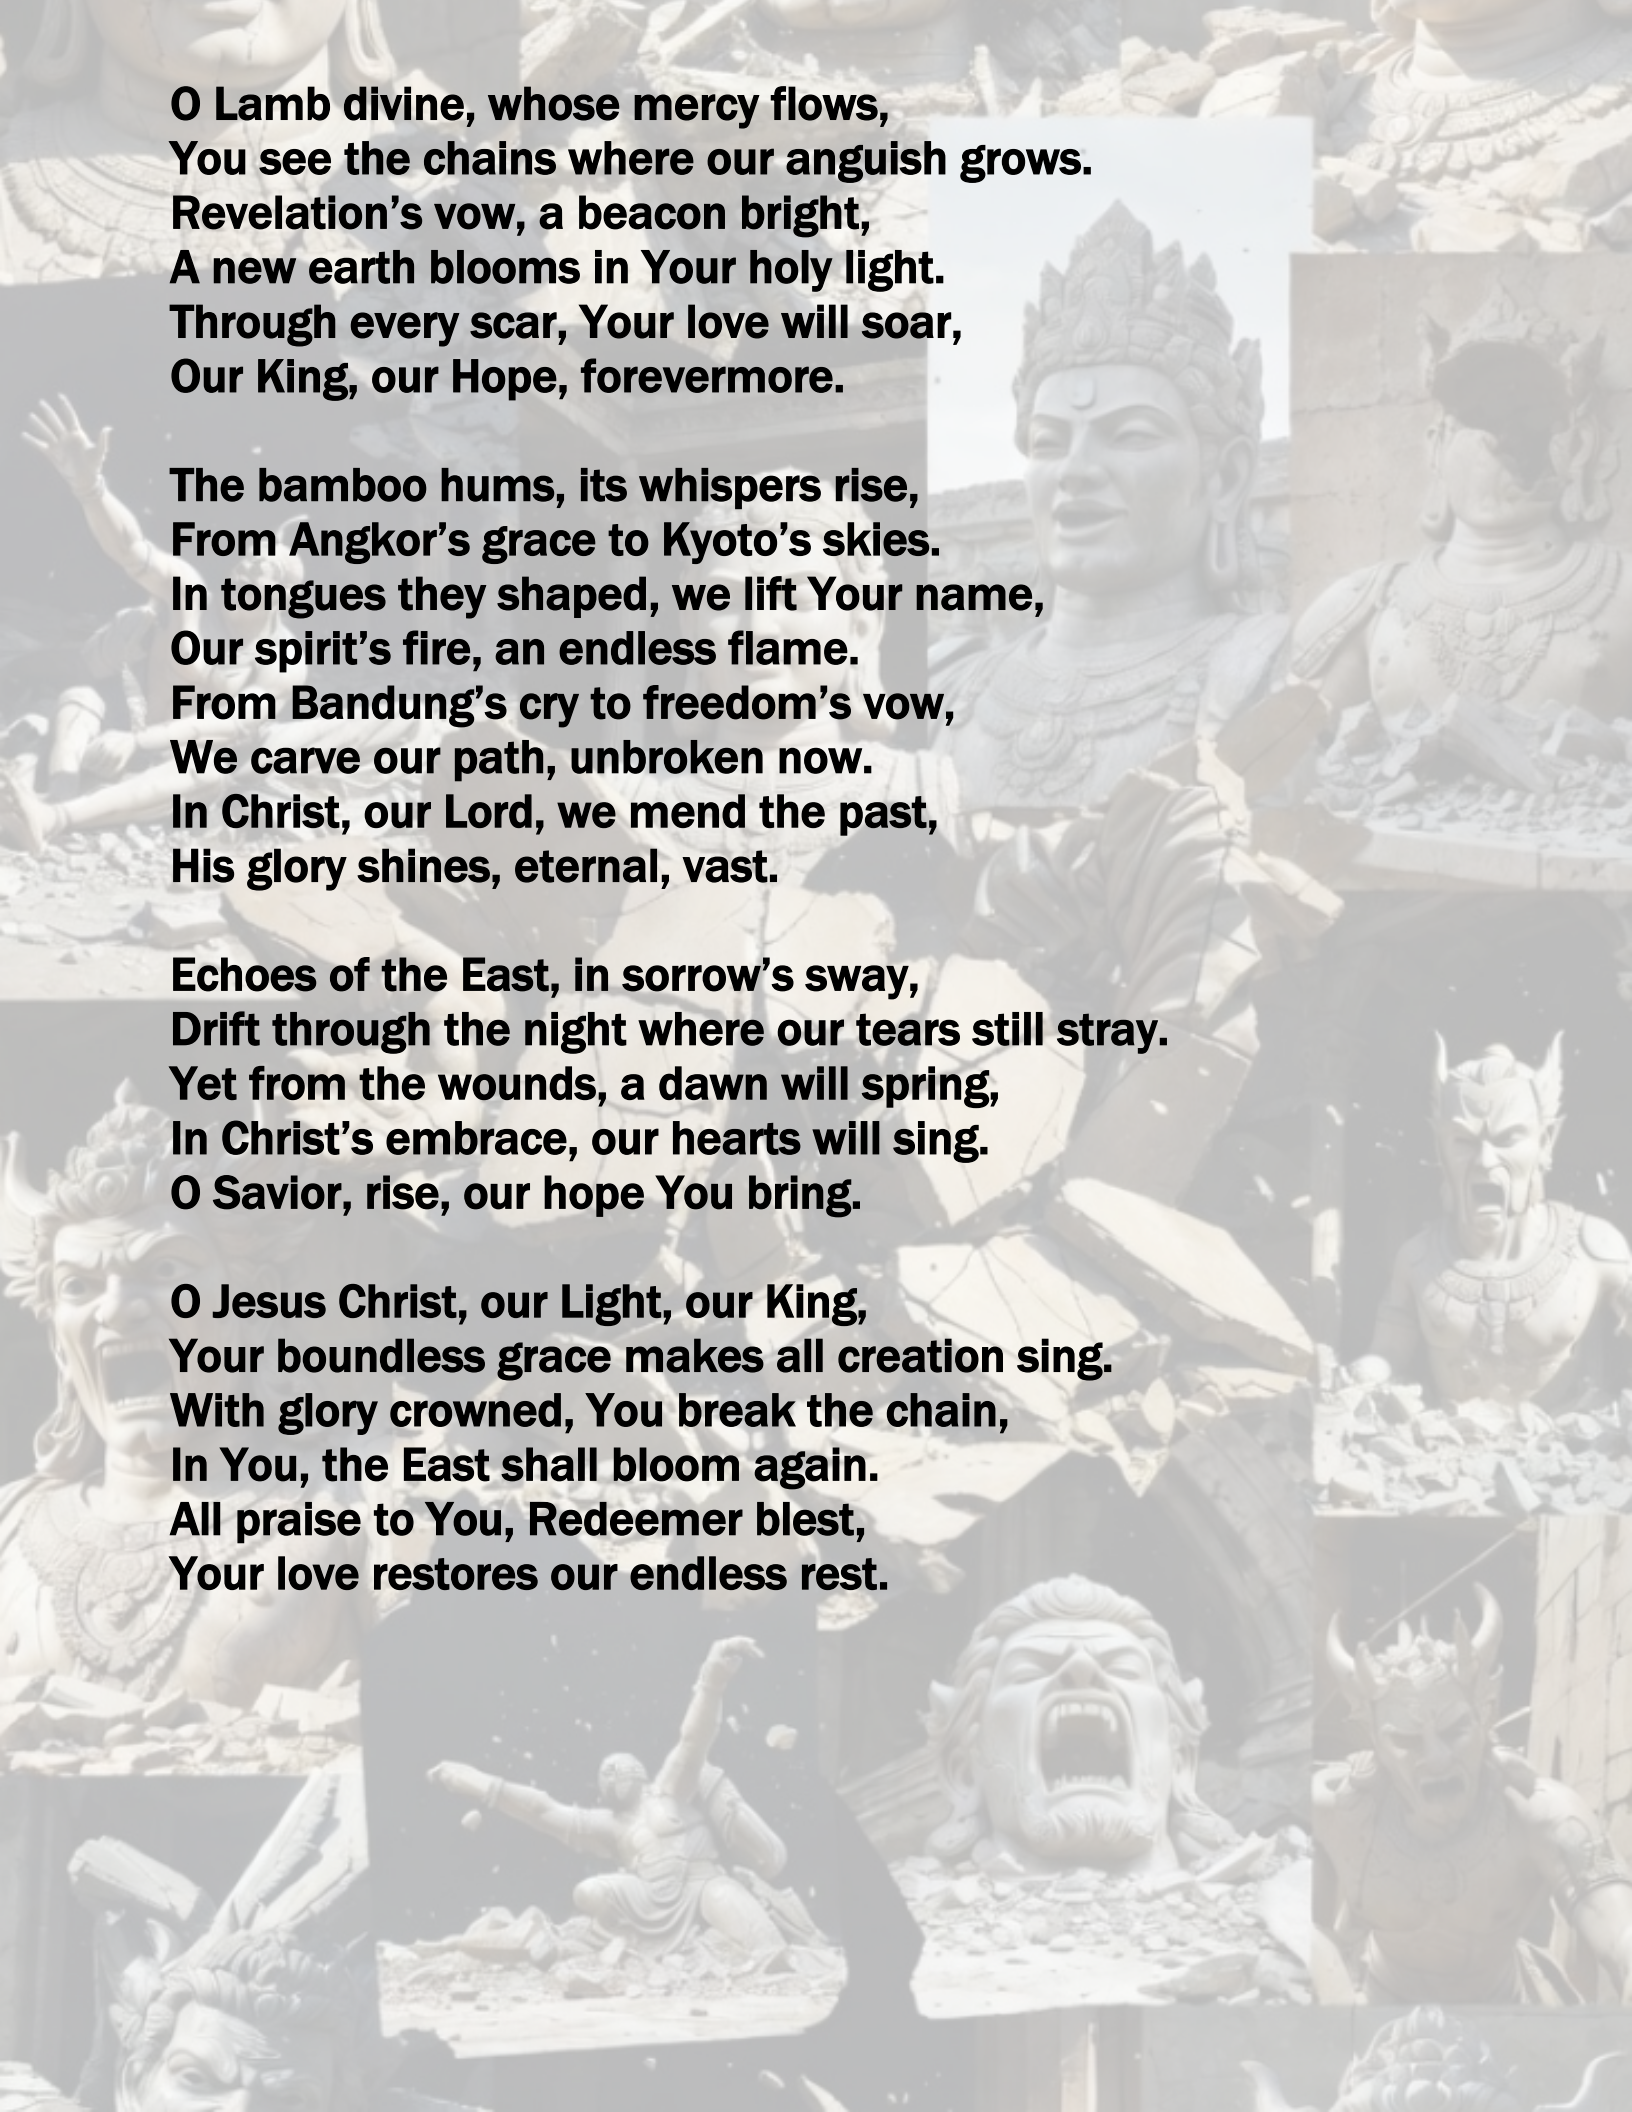

Echoes of the East

**O radiant East, where rivers wail,
Your lotus weeps beneath a tattered veil.
With shadowed sails, their greed did bind,
The pulse of lands where stars aligned.
Through temple spires and saffron streams,
They wove a cage to snare our dreams.
Our songs were stilled, our spirits swayed,
In their grim web, our light decayed.**

**Echoes of the East, in sorrow's sway,
Drift through the night where our tears still stray.
Yet from the wounds, a dawn will spring,
In Christ's embrace, our hearts will sing.
O Savior, rise, our hope You bring.**

**They slashed through kin with quills of steel,
Where rice once danced, their blades did reel.
Our gold they claimed, our altars fell,
Yet faith endured where prophets dwell.
From Ganges' flow to Java's shore,
Our souls held fast through tides of war.
In Daniel's sight, a truth unfolds,
God's kingdom reigns, as time foretold.**

**Echoes of the East, in sorrow's sway,
Drift through the night where our tears still stray.
Yet from the wounds, a dawn will spring,
In Christ's embrace, our hearts will sing.
O Savior, rise, our hope You bring.**

**O Lamb divine, whose mercy flows,
You see the chains where our anguish grows.
Revelation's vow, a beacon bright,
A new earth blooms in Your holy light.
Through every scar, Your love will soar,
Our King, our Hope, forevermore.**

**The bamboo hums, its whispers rise,
From Angkor's grace to Kyoto's skies.
In tongues they shaped, we lift Your name,
Our spirit's fire, an endless flame.
From Bandung's cry to freedom's vow,
We carve our path, unbroken now.
In Christ, our Lord, we mend the past,
His glory shines, eternal, vast.**

**Echoes of the East, in sorrow's sway,
Drift through the night where our tears still stray.
Yet from the wounds, a dawn will spring,
In Christ's embrace, our hearts will sing.
O Savior, rise, our hope You bring.**

**O Jesus Christ, our Light, our King,
Your boundless grace makes all creation sing.
With glory crowned, You break the chain,
In You, the East shall bloom again.
All praise to You, Redeemer blest,
Your love restores our endless rest.**

Album 51 Song 04

Blood of the Saints

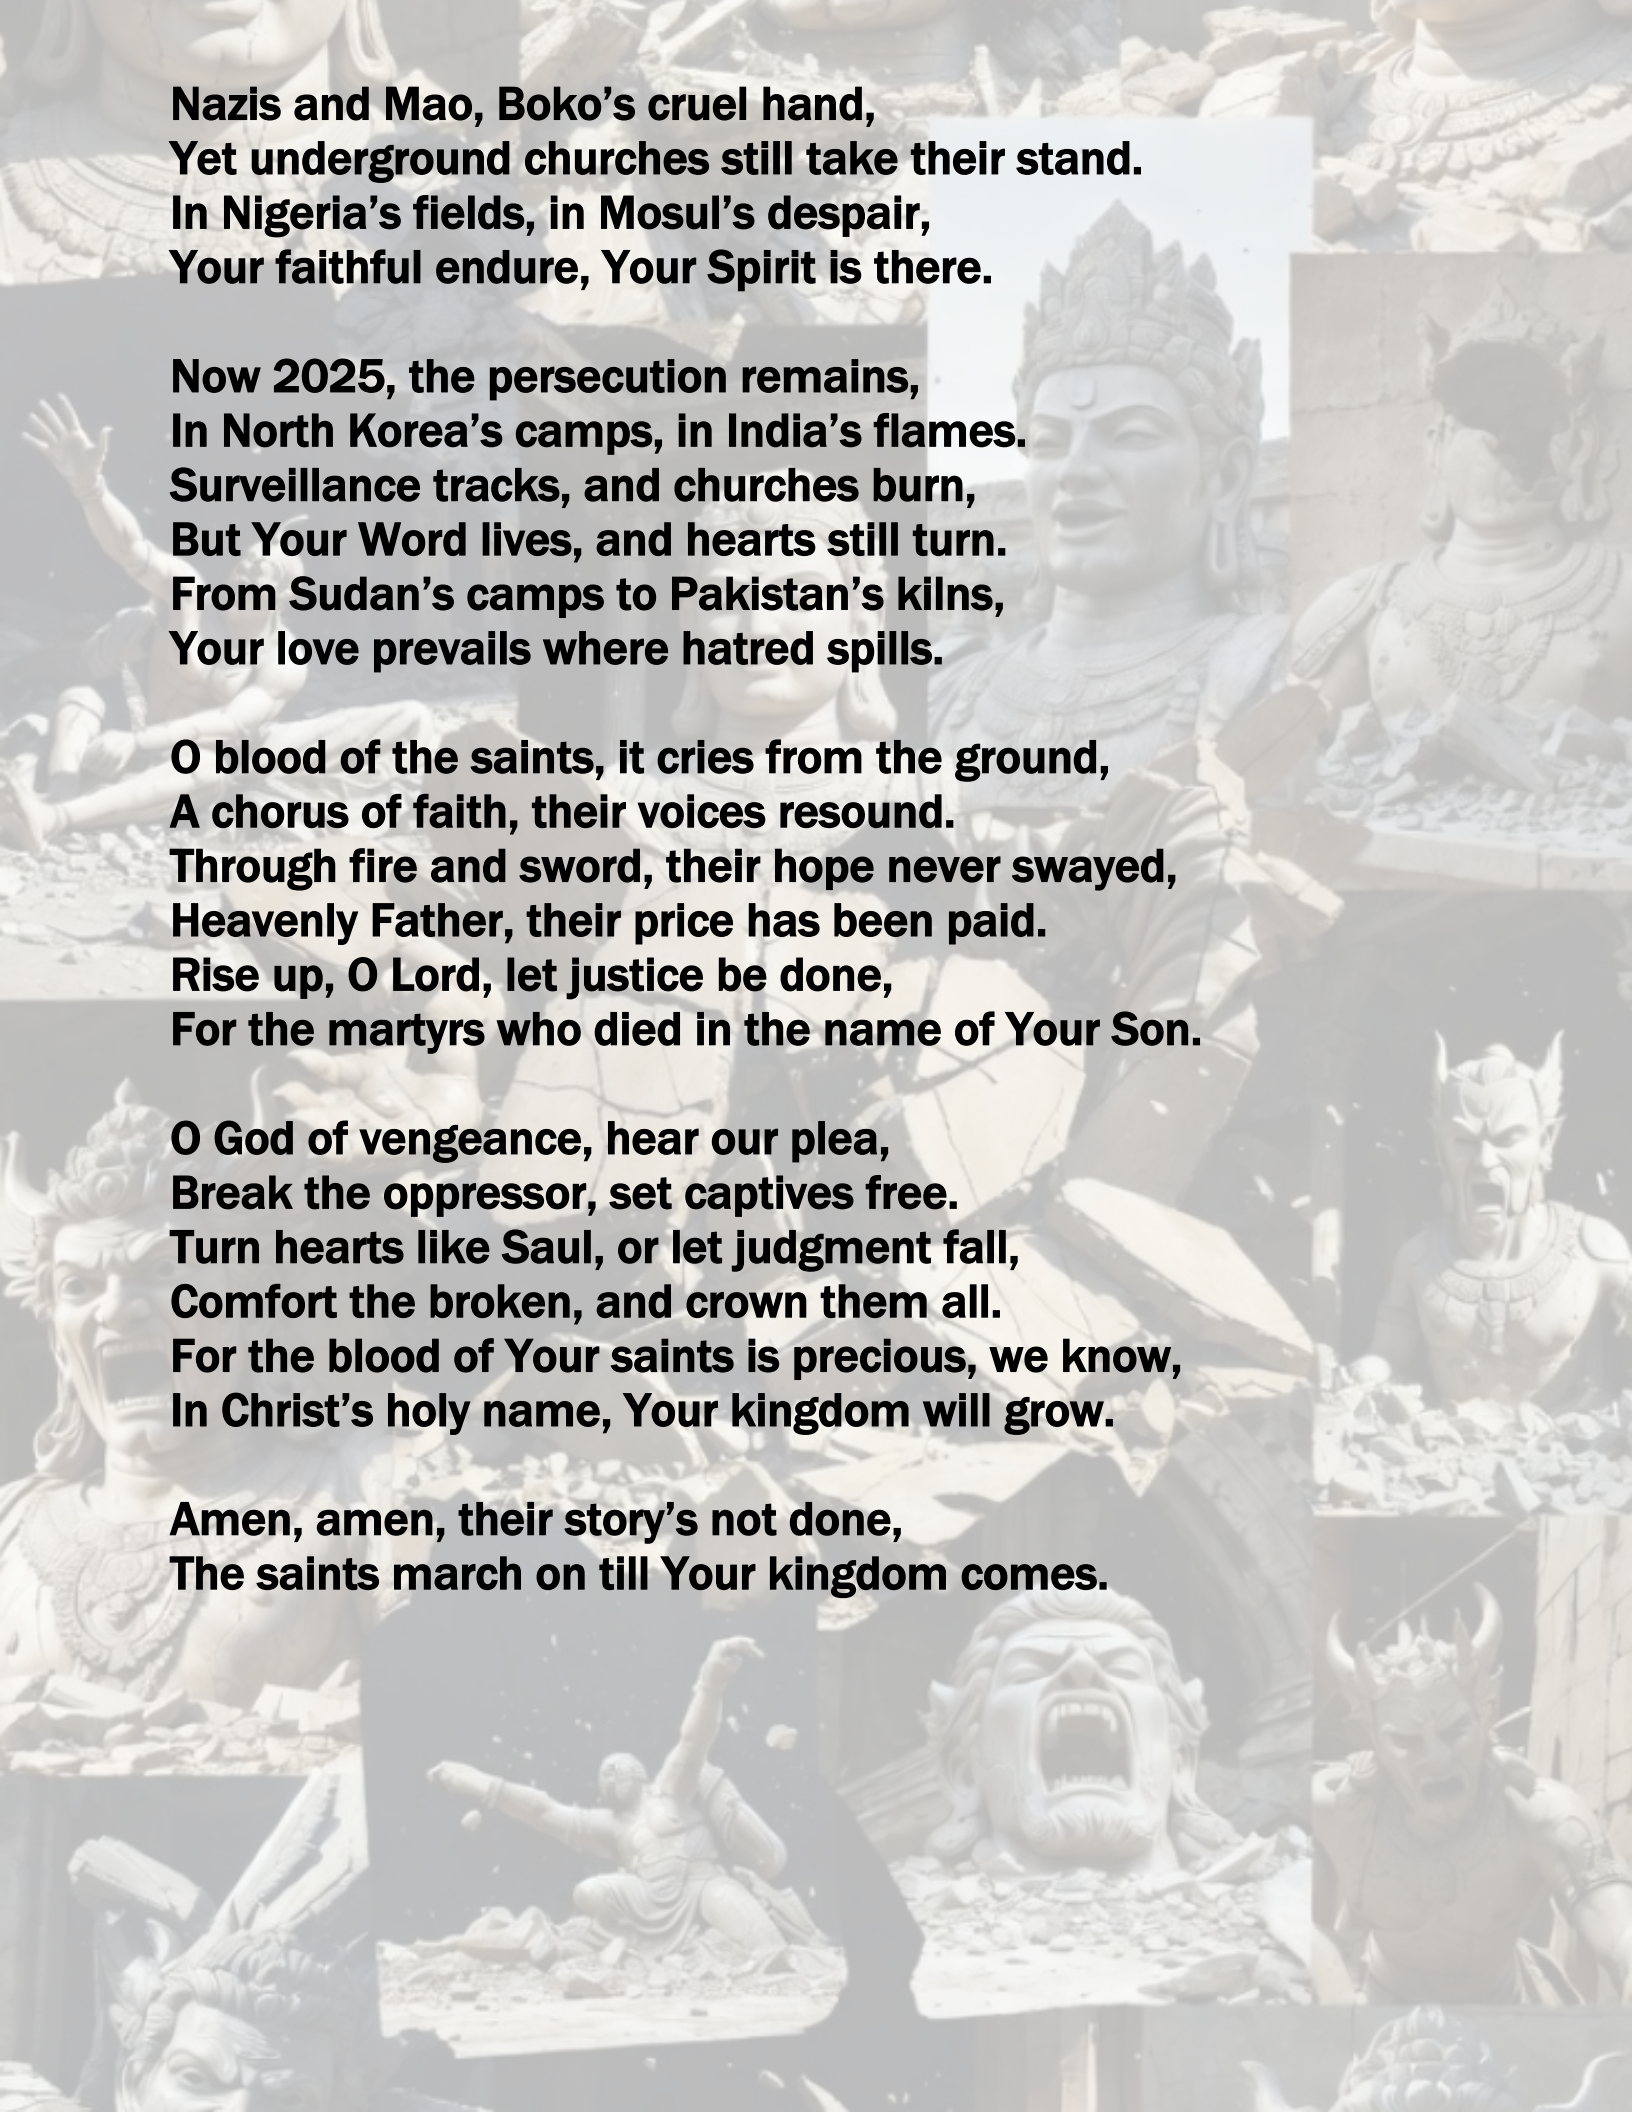

**From Stephen's stones in Jerusalem's dust,
To Nero's flames where martyrs trust,
The cross they bore, their faith held fast,
Through Jewish scorn and Roman wrath.
Two thousand fell in Herod's reign,
Yet Christ's own Word would still sustain.**

**O blood of the saints, it cries from the ground,
A chorus of faith, their voices resound.
Through fire and sword, their hope never swayed,
Heavenly Father, their price has been paid.
Rise up, O Lord, let justice be done,
For the martyrs who died in the name of Your Son.**

**The Germanic tribes, the Persian blade,
Islam's advance, the dhimmi's chains.
In Bethlehem's shadow, monks burned alive,
Yet in their suffering, Your church would thrive.
From Constantinople's fall to the Ottoman night,
Your people held firm in the flickering light.**

**O blood of the saints, it cries from the ground,
A chorus of faith, their voices resound.
Through fire and sword, their hope never swayed,
Heavenly Father, their price has been paid.
Rise up, O Lord, let justice be done,
For the martyrs who died in the name of Your Son.**

**Armenians slain, a genocide's scar,
Soviet gulags where Your children starved.**

**Nazis and Mao, Boko's cruel hand,
Yet underground churches still take their stand.
In Nigeria's fields, in Mosul's despair,
Your faithful endure, Your Spirit is there.**

**Now 2025, the persecution remains,
In North Korea's camps, in India's flames.
Surveillance tracks, and churches burn,
But Your Word lives, and hearts still turn.
From Sudan's camps to Pakistan's kilns,
Your love prevails where hatred spills.**

**O blood of the saints, it cries from the ground,
A chorus of faith, their voices resound.
Through fire and sword, their hope never swayed,
Heavenly Father, their price has been paid.
Rise up, O Lord, let justice be done,
For the martyrs who died in the name of Your Son.**

**O God of vengeance, hear our plea,
Break the oppressor, set captives free.
Turn hearts like Saul, or let judgment fall,
Comfort the broken, and crown them all.
For the blood of Your saints is precious, we know,
In Christ's holy name, Your kingdom will grow.**

**Amen, amen, their story's not done,
The saints march on till Your kingdom comes.**

Album 51 Song 05

Holy Spirit Break the Idols

Oh... light shatters idol's reign...

哦... 圣光驱散黑暗之链

हाय... प्रकाश मूर्तियों को तोड़ दे Holy Spirit, set the nations free!

(“Shine... in eternal light...” / “闪耀... 永恒之光...” / “चमक... शाश्वत प्रकाश...”)

In Manchuria's lands, Quangenposa stands tall,

丰收之灵，假装赐福人间

Quoungiapusa guards, offering false embrace,

庇护之神，欺骗心灵安宁

Xennoumeo rules skies, claiming cosmic might,

天皇之魂，篡夺创造权威

Xenu stirs strength, binding tribes in fight,

战神之影，诱惑胜利虚荣

(“Oh, shadows... fade away...” / “哦，阴影... 消散...”)

Holy Spirit, break the idols, O Lord!

圣灵，打破偶像，哦主！

पवित्र आत्मा, मूर्तियों को तोड़ दो, प्रभु

From pagan chains to holy flame,

Righteous love restores sacred name!

Oh, sing, sing, of sovereign grace,

哦，歌唱，歌唱，至高恩典

हाय, गाओ, गाओ, परम कृपा

**Demons flee, light makes whole,
Holy Spirit, redeem the soul!**

**(“Glory... shine forever...” / “榮耀... 永恒閃耀...” / “महिमा... सदा
चमक...”)**

In India’s heart, Quenevady rises high,

गणेश मूर्ति, बुद्धि का झूठा मार्ग

Elephant-headed form, promising obstacles cleared,

成功之神, 诱惑虚假光明

From Niukhian steppes to Ganges’ sacred flow,

Idols bind souls, where shaman chants grow.

Sveti Duh, 粉碎偶像之链

पवित्र आत्मा, मूर्तियों के बंधन तोड़ दो

Light of truth burns, casting darkness below,

Restoring lands where divine rivers flow.

(“Oh, idols... crumble now...” / “哦, 偶像... 崩溃...” / “हाय, मूर्तियाँ...

टूट जाओ...”)

Fallen idols, power no more...

偶像倒塌, 莫再有权

मूर्तियाँ गिरीं, शक्ति खो गई

Shattered altars, lies now fade...

Angels sing, light invades!

Evil spirits, cast to abyss deep...

圣火永燃, 榮耀不息

पवित्र अग्नि, महिमा सदा

**(“Oh, mercy... cleanse the lands...” / “哦，怜悯... 净化大地...” /
“हाय, दया... भूमि शुद्ध करो...”)**

**Holy Spirit, break the idols, O Lord!
圣灵，打破偶像，哦主！**

**पवित्र आत्मा, मूर्तियों को तोड़ दो, प्रभु!
From pagan chains to holy flame,
Righteous love restores sacred name!
Oh, sing, sing, of sovereign grace,
哦，歌唱，歌唱，至高恩典**

**हाय, गाओ, गाओ, परम कृपा
Demons flee, light makes whole,
Holy Spirit, redeem the soul!**

**(“Spirit, eternal light!” / “灵，永恒之光！” / “आत्मा, शाश्वत प्रकाश
!”)**

**Oh... Spirit... light of sacred lands...
哦... 圣灵... 大地之光永恒**

**हाय... आत्मा... पवित्र भूमि का प्रकाश
From shadows deep, glory ever flows,
Holy Spirit, forever close...**

**(“Forever... divine glow...” / “永远... 神圣光芒...” / “सदा... दैवीय
चमक...”)**

Album 51 Song 06

Shadows of Chaos

**From the void where shadows creep, SCP-001's secrets sleep,
Broken gods and scarlet kings, apocalyptic whispers sing.
Able's blade (SCP-076) cuts the night, cursed by Cain, he burns with spite,
Through the walls, the Old Man (SCP-106) strides, dragging souls
where torment hides.**

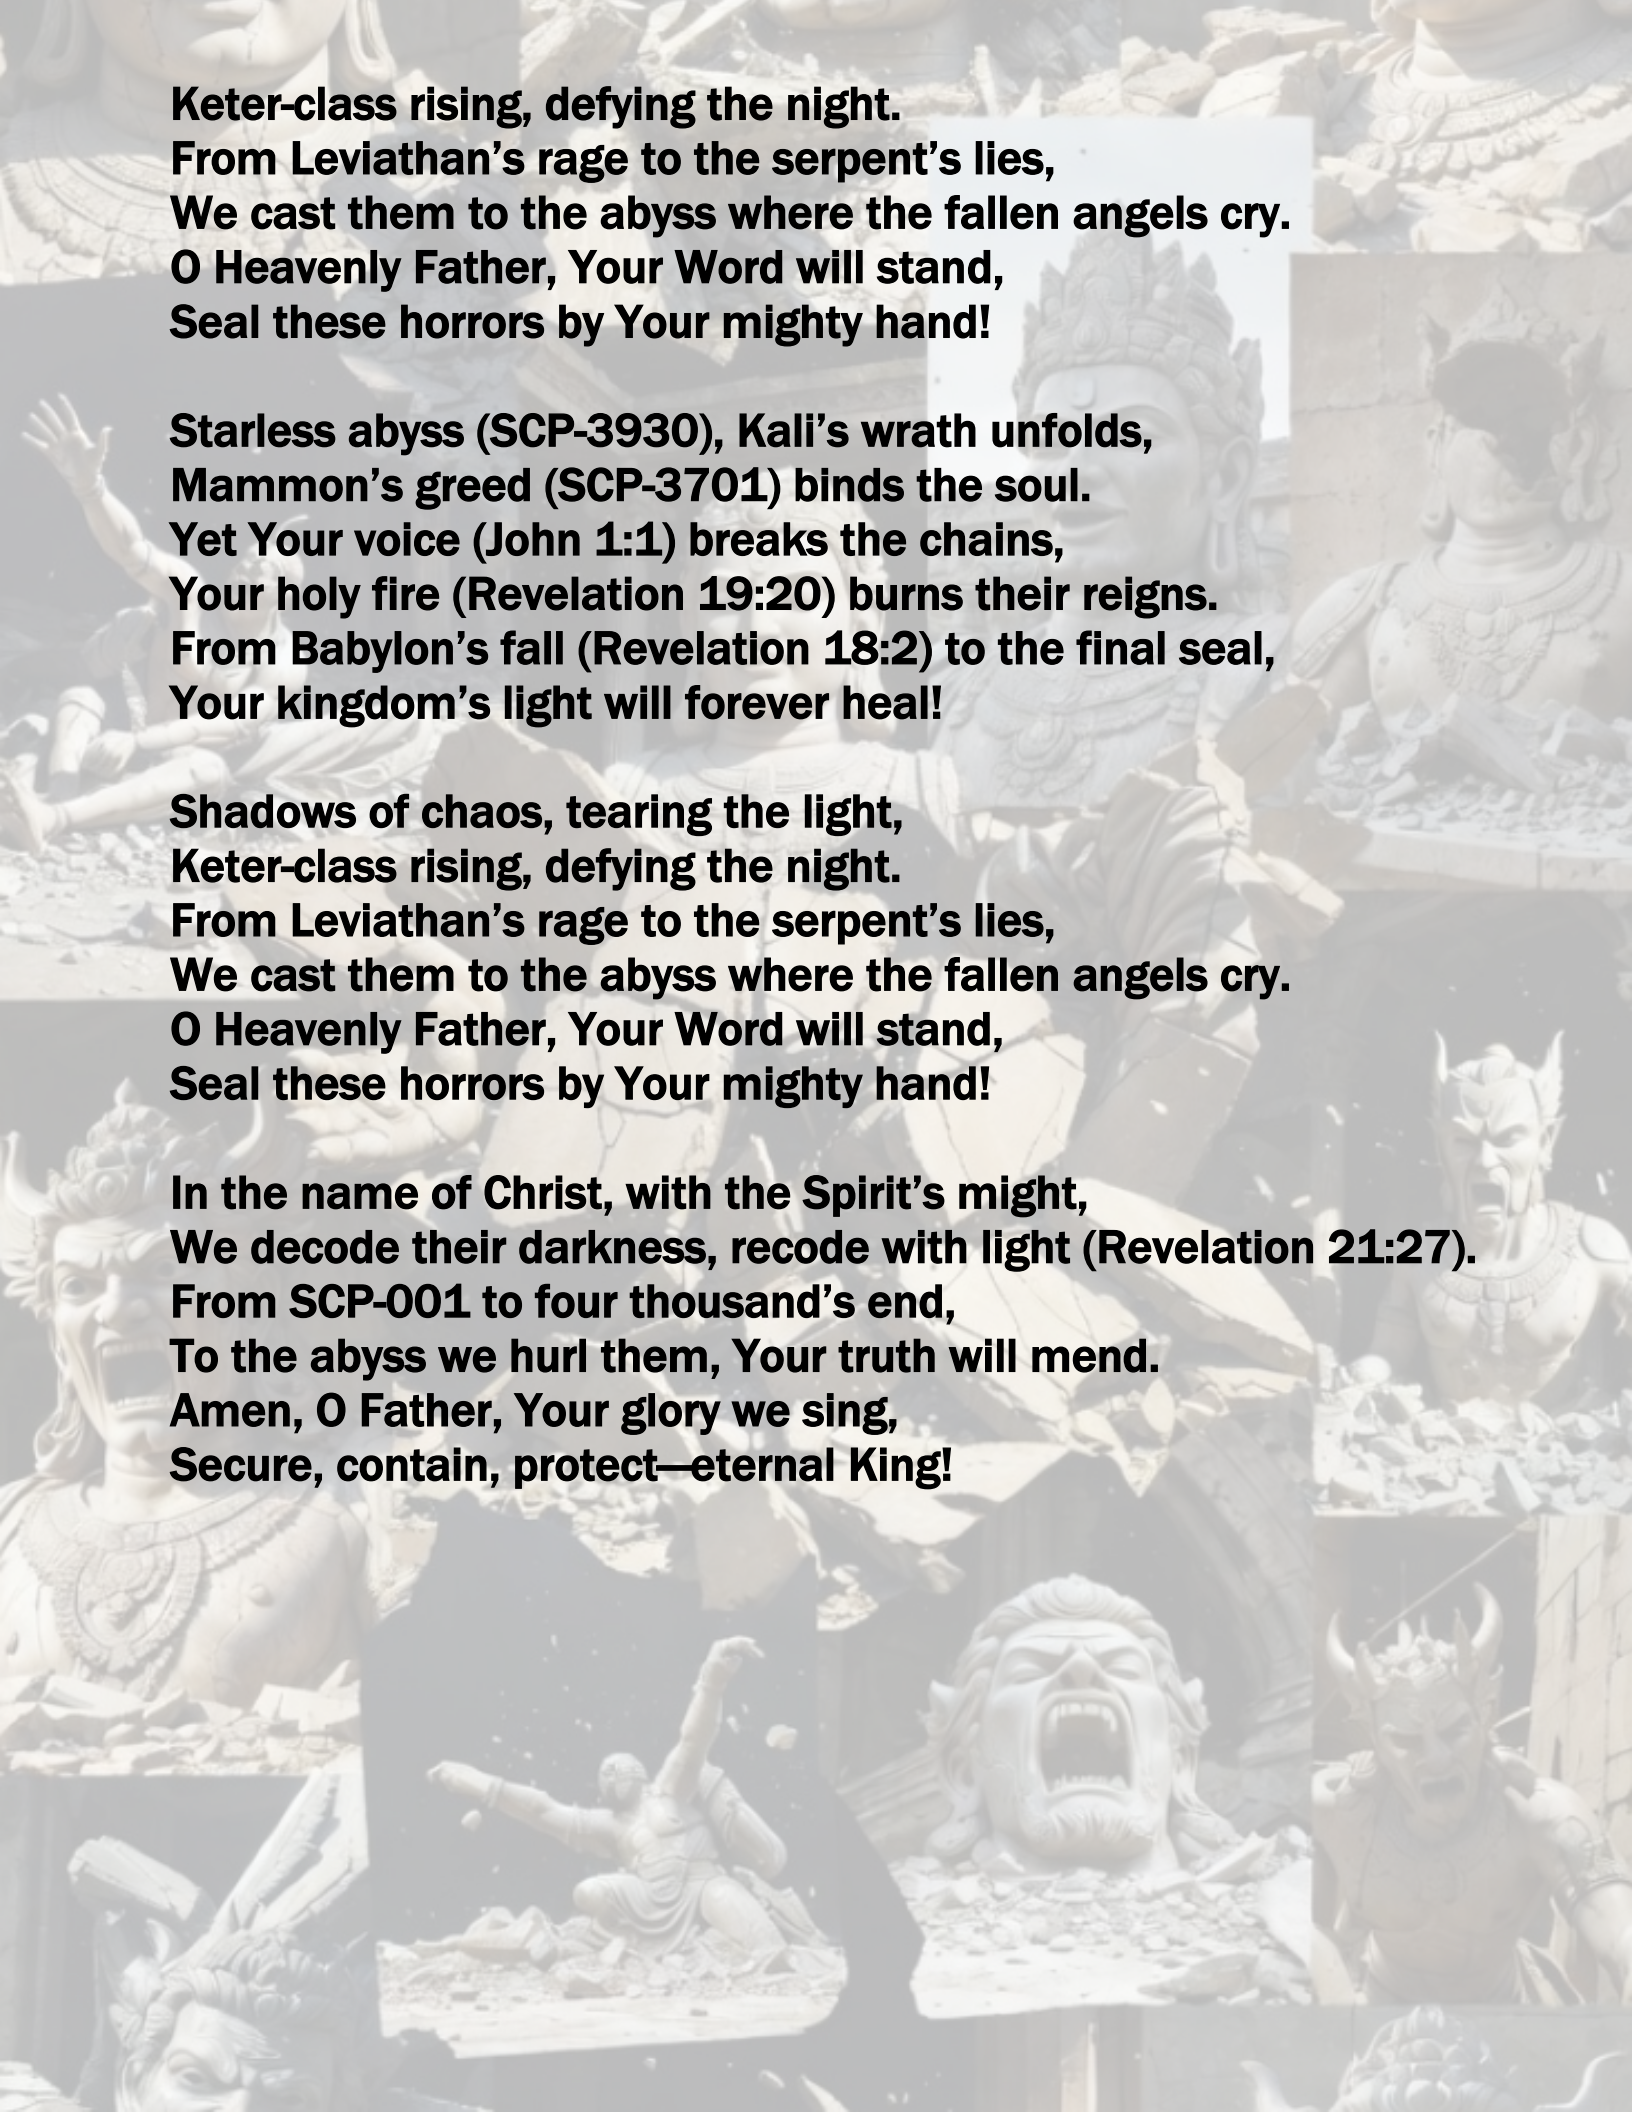

**Anunnaki's wrath, Tiamat's roar,
Enochian demons at the door.
Solomon's keys unlock the chains,
Keter's chaos breaks the reins.**

**Shadows of chaos, tearing the light,
Keter-class rising, defying the night.
From Leviathan's (SCP-682) rage to the serpent's (SCP-3000) lies,
We cast them to the abyss where the fallen angels cry.
O Heavenly Father, Your Word will stand,
Seal these horrors by Your mighty hand!**

**SCP-231-7 weeps in chains, Scarlet's child brings endless pain,
In the deep, SCP-3000 coils, stealing minds with amnestic toils.
SCP-4000's grove of names, faerie traps in Anunnaki games,
Broker's altar (SCP-3701), starless shrine (SCP-3780), curse the
earth with dark divine.**

**Colonial scars, their shadows cast,
Secret cults invoke the past.
Revelation's beasts (Revelation 13:1) rise to fight,
But God's truth will pierce the night.**

Shadows of chaos, tearing the light,

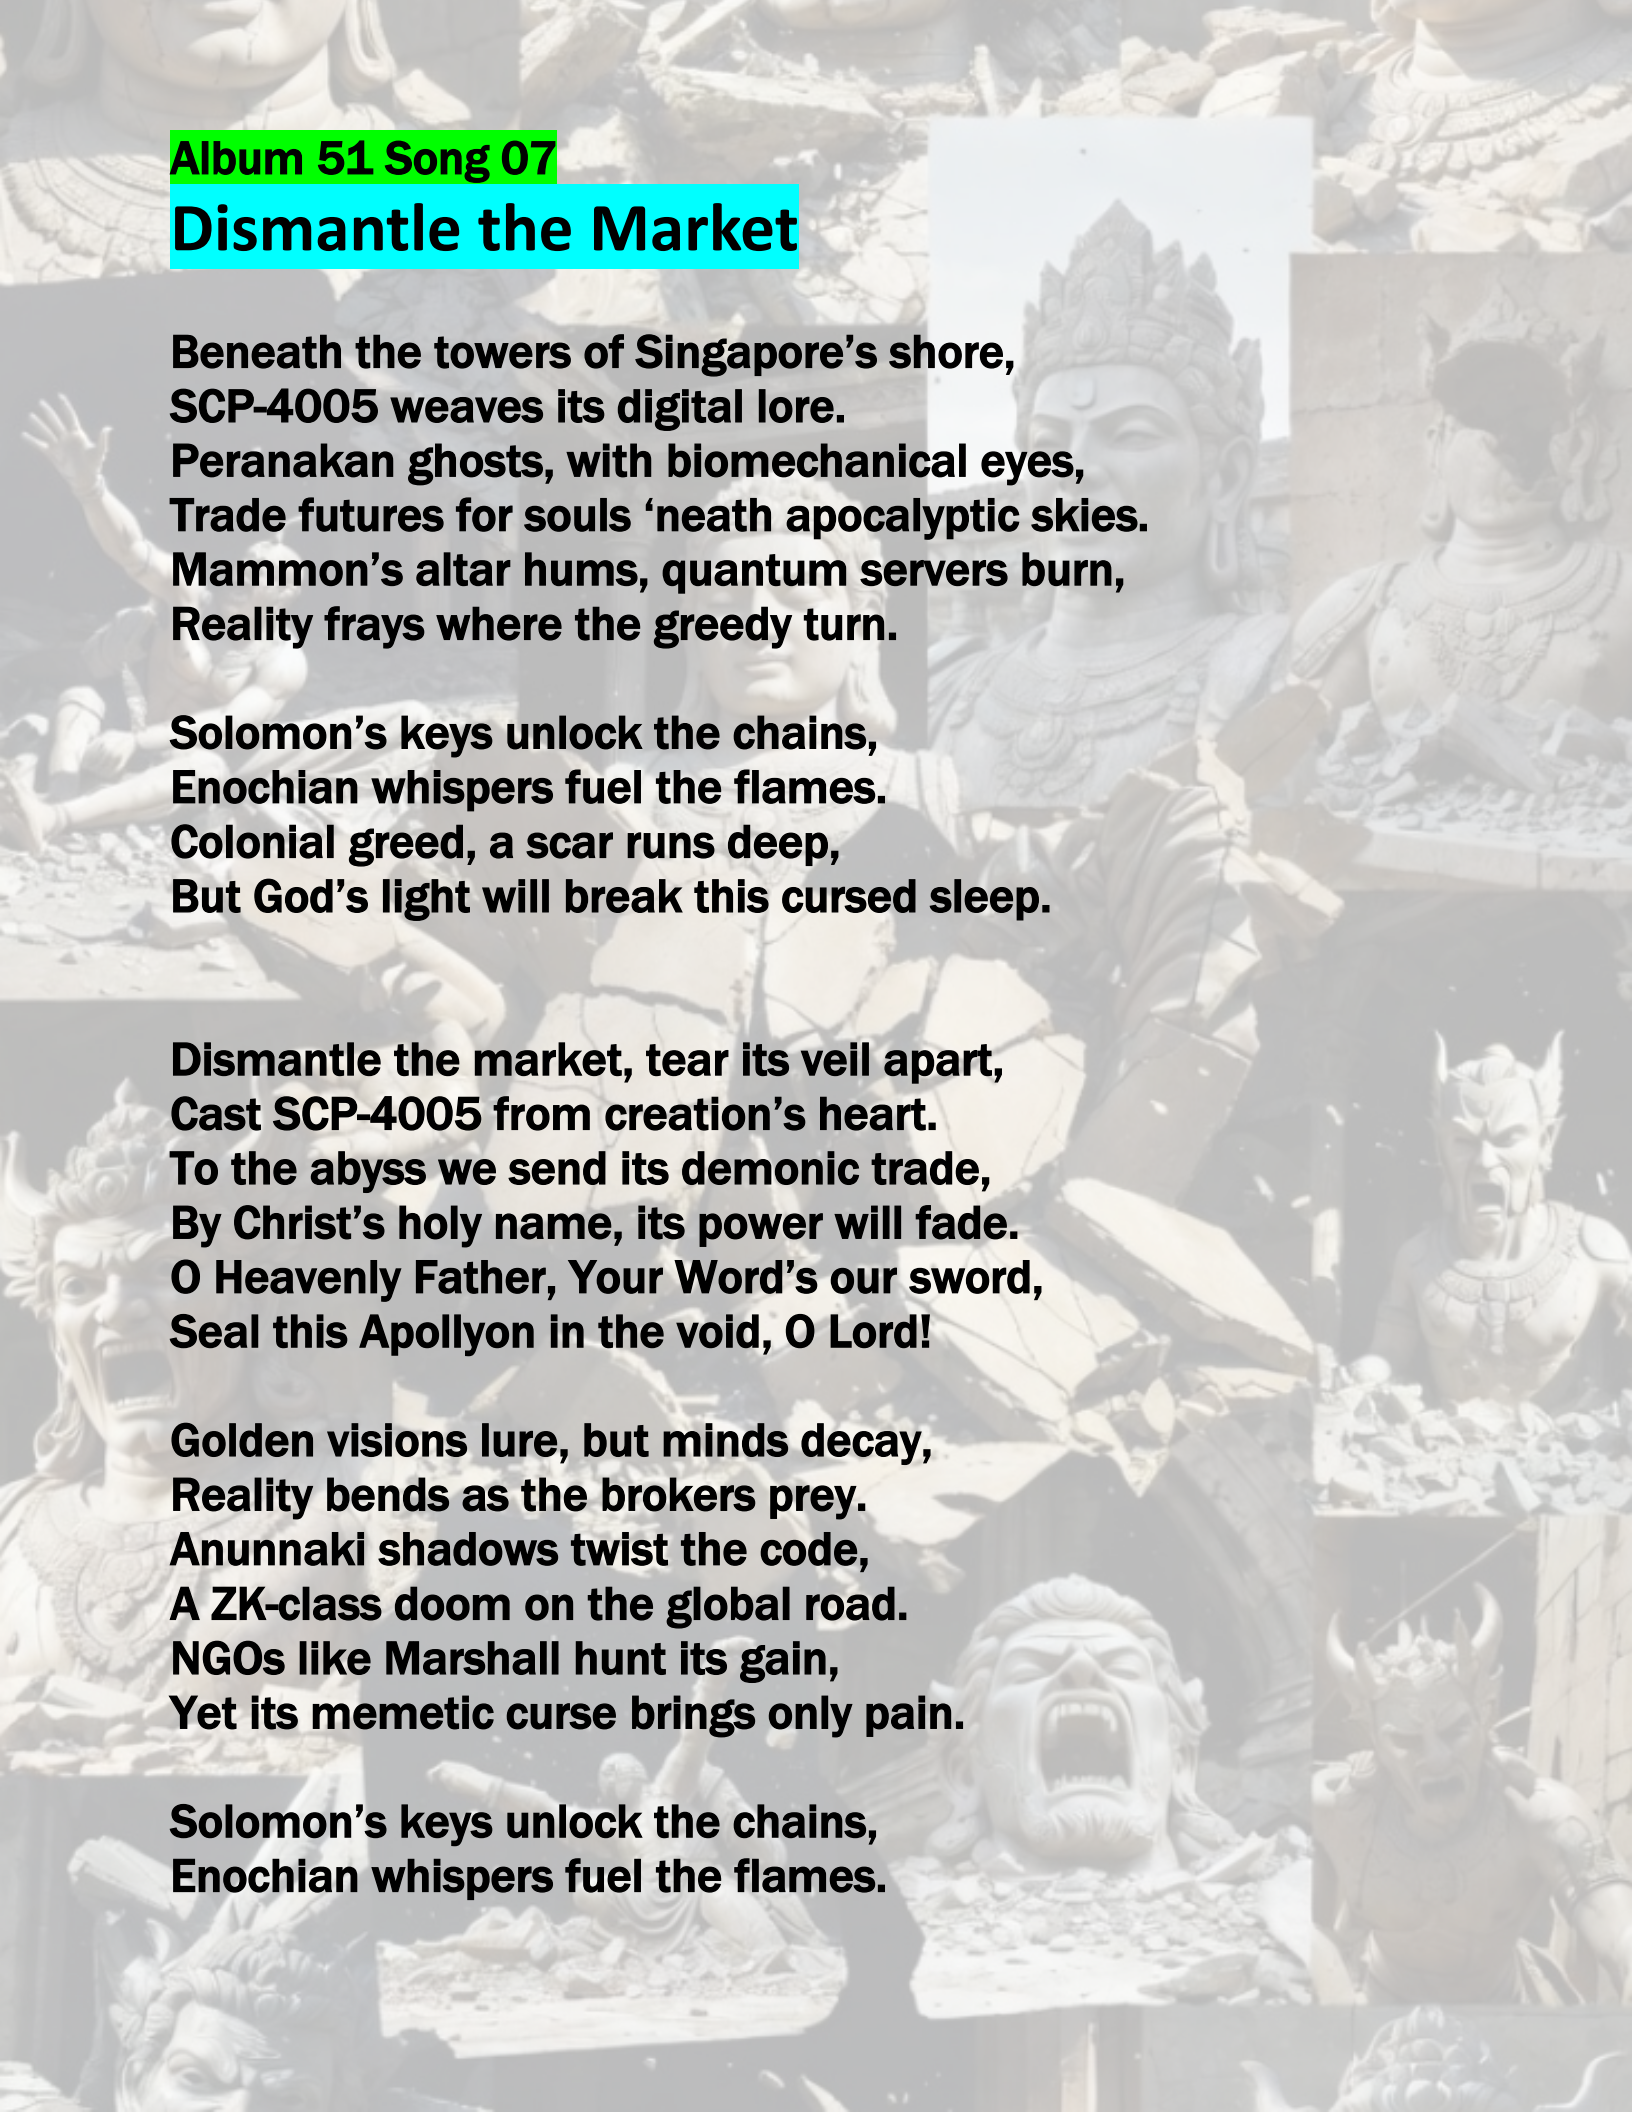

**Keter-class rising, defying the night.
From Leviathan's rage to the serpent's lies,
We cast them to the abyss where the fallen angels cry.
O Heavenly Father, Your Word will stand,
Seal these horrors by Your mighty hand!**

**Starless abyss (SCP-3930), Kali's wrath unfolds,
Mammon's greed (SCP-3701) binds the soul.
Yet Your voice (John 1:1) breaks the chains,
Your holy fire (Revelation 19:20) burns their reigns.
From Babylon's fall (Revelation 18:2) to the final seal,
Your kingdom's light will forever heal!**

**Shadows of chaos, tearing the light,
Keter-class rising, defying the night.
From Leviathan's rage to the serpent's lies,
We cast them to the abyss where the fallen angels cry.
O Heavenly Father, Your Word will stand,
Seal these horrors by Your mighty hand!**

**In the name of Christ, with the Spirit's might,
We decode their darkness, recode with light (Revelation 21:27).
From SCP-001 to four thousand's end,
To the abyss we hurl them, Your truth will mend.
Amen, O Father, Your glory we sing,
Secure, contain, protect—eternal King!**

Album 51 Song 07

Dismantle the Market

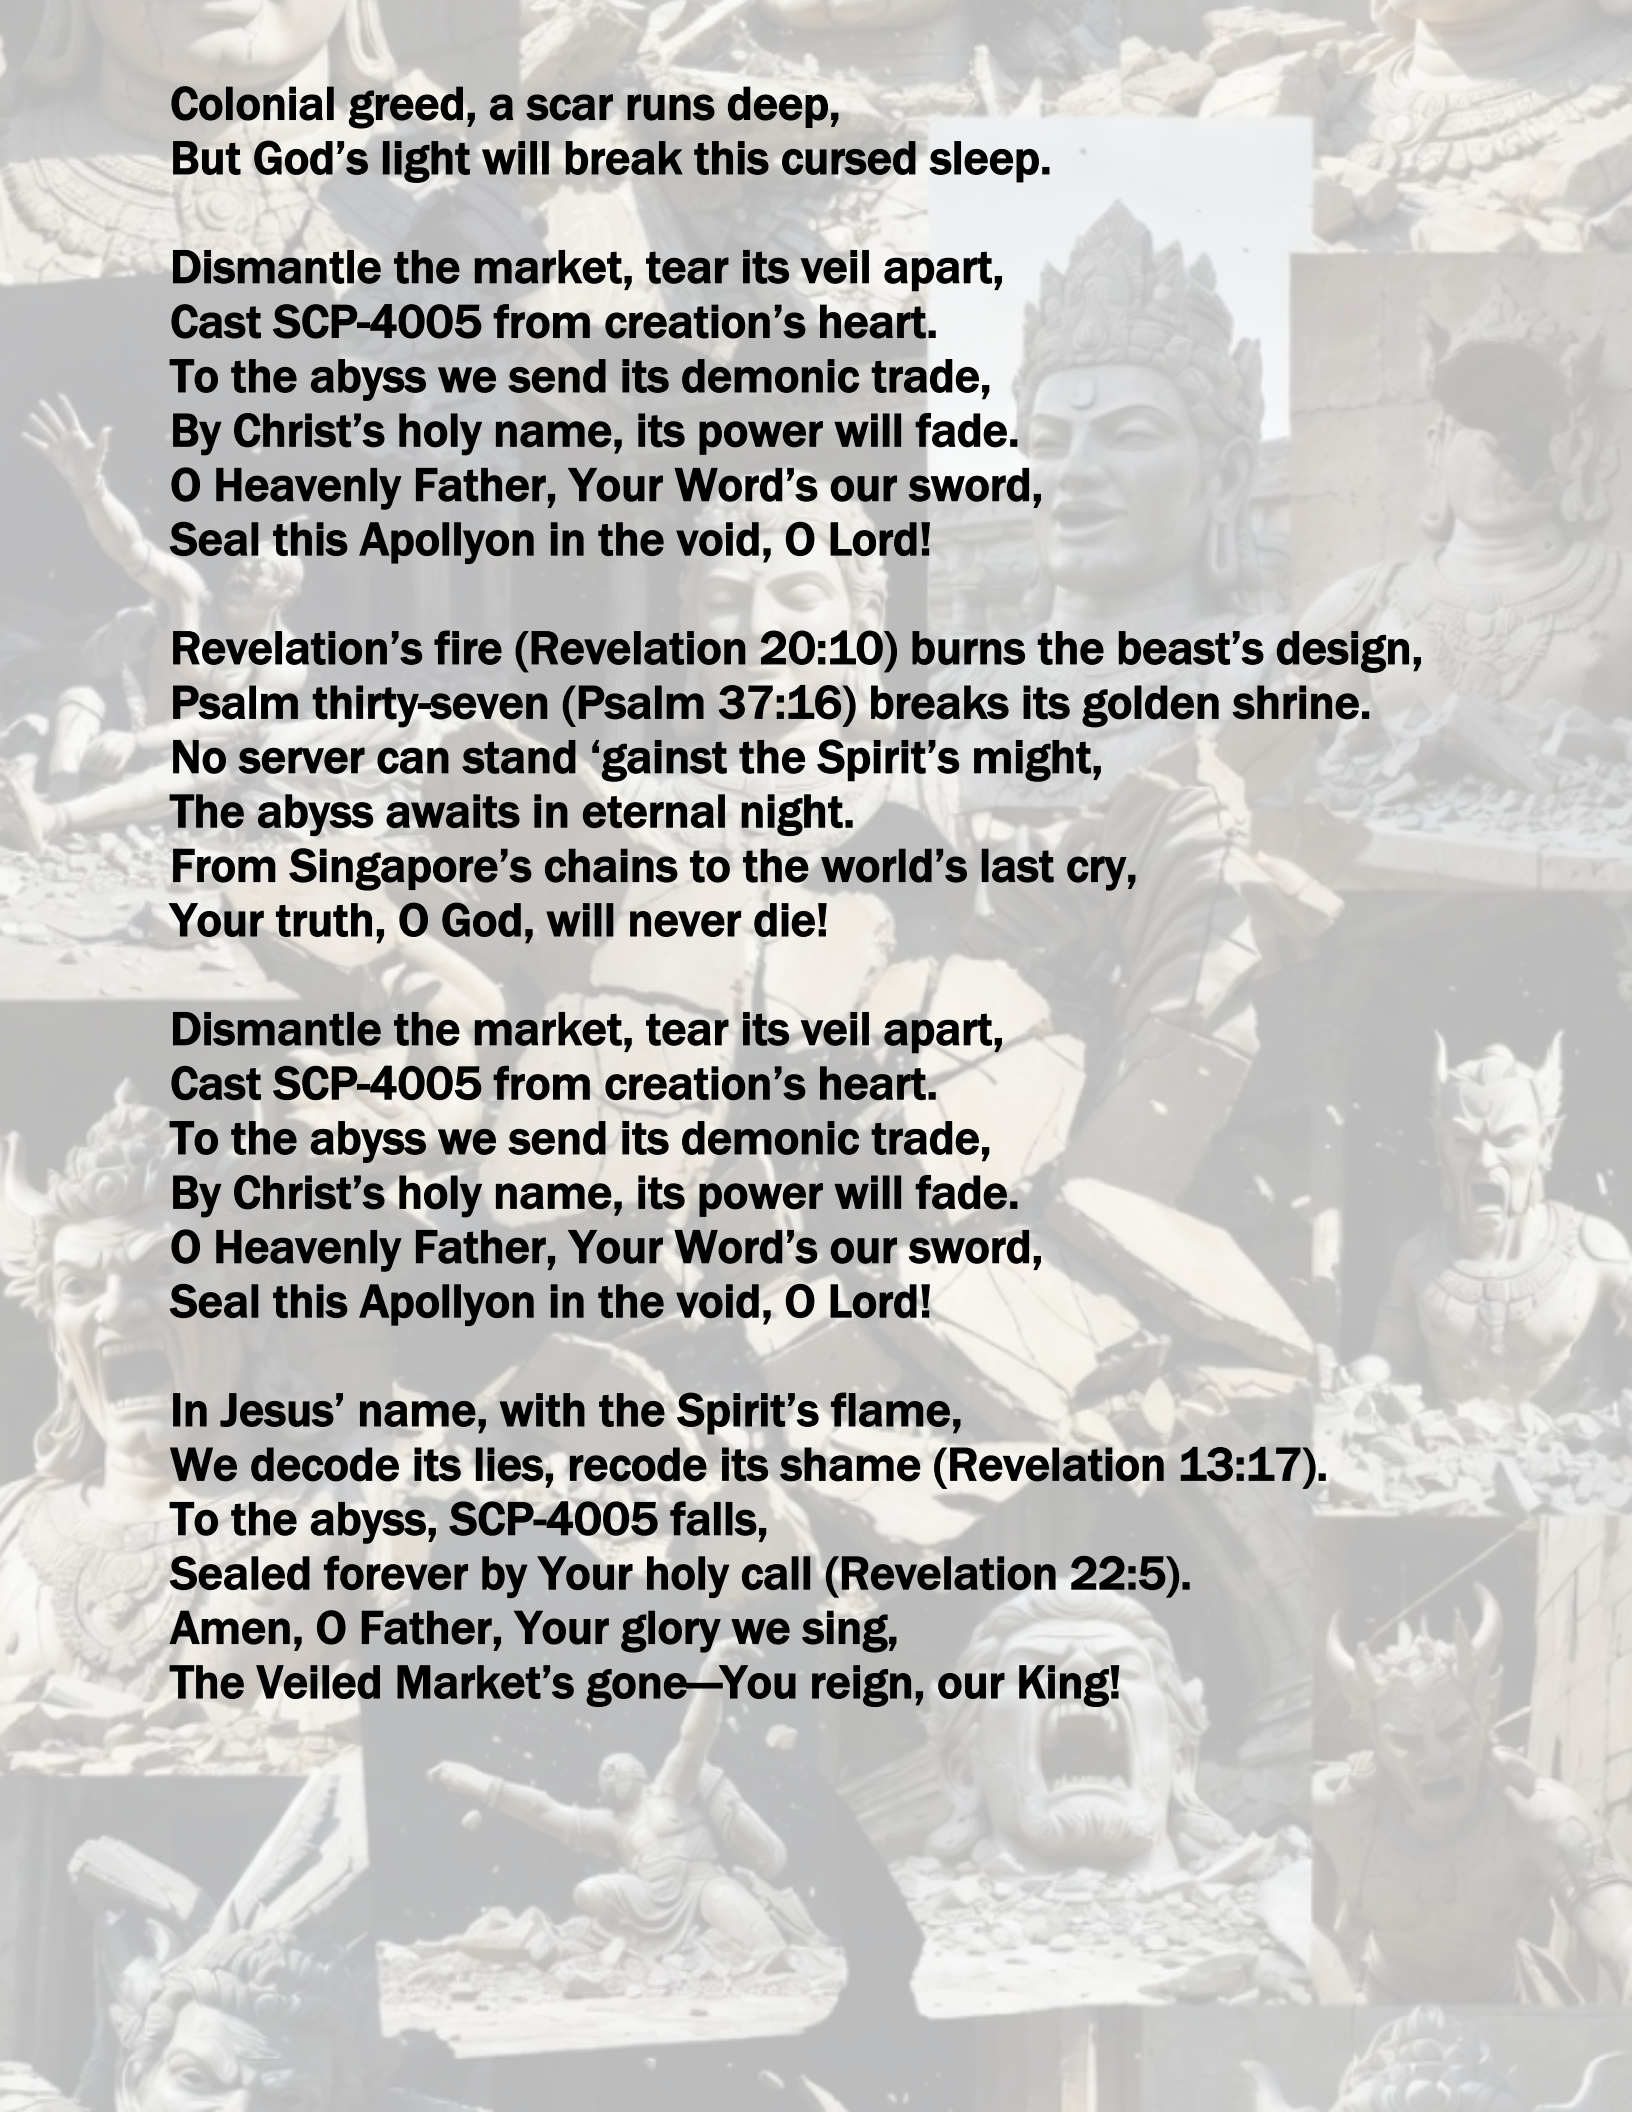

**Beneath the towers of Singapore's shore,
SCP-4005 weaves its digital lore.
Peranakan ghosts, with biomechanical eyes,
Trade futures for souls 'neath apocalyptic skies.
Mammon's altar hums, quantum servers burn,
Reality frays where the greedy turn.**

**Solomon's keys unlock the chains,
Enochian whispers fuel the flames.
Colonial greed, a scar runs deep,
But God's light will break this cursed sleep.**

**Dismantle the market, tear its veil apart,
Cast SCP-4005 from creation's heart.
To the abyss we send its demonic trade,
By Christ's holy name, its power will fade.
O Heavenly Father, Your Word's our sword,
Seal this Apollyon in the void, O Lord!**

**Golden visions lure, but minds decay,
Reality bends as the brokers prey.
Anunnaki shadows twist the code,
A ZK-class doom on the global road.
NGOs like Marshall hunt its gain,
Yet its memetic curse brings only pain.**

**Solomon's keys unlock the chains,
Enochian whispers fuel the flames.**

**Colonial greed, a scar runs deep,
But God's light will break this cursed sleep.**

**Dismantle the market, tear its veil apart,
Cast SCP-4005 from creation's heart.
To the abyss we send its demonic trade,
By Christ's holy name, its power will fade.
O Heavenly Father, Your Word's our sword,
Seal this Apollyon in the void, O Lord!**

**Revelation's fire (Revelation 20:10) burns the beast's design,
Psalm thirty-seven (Psalm 37:16) breaks its golden shrine.
No server can stand 'gainst the Spirit's might,
The abyss awaits in eternal night.
From Singapore's chains to the world's last cry,
Your truth, O God, will never die!**

**Dismantle the market, tear its veil apart,
Cast SCP-4005 from creation's heart.
To the abyss we send its demonic trade,
By Christ's holy name, its power will fade.
O Heavenly Father, Your Word's our sword,
Seal this Apollyon in the void, O Lord!**

**In Jesus' name, with the Spirit's flame,
We decode its lies, recode its shame (Revelation 13:17).
To the abyss, SCP-4005 falls,
Sealed forever by Your holy call (Revelation 22:5).
Amen, O Father, Your glory we sing,
The Veiled Market's gone—You reign, our King!**
