Album 70 Song 1

From Nile to New Dawn

From the Nile's deep cradle where shadows reign
Pharaohs rose in glory bound by pride and chain
Inscriptions echo their tales unfold
A matrix of power now dust and gold

Oh matrix of dynasty built on sand
Narmer to Hophra by human hand
False gods of Orion Osiris bow
The Lord dismantles your thrones right now
Spirits of conquest pride and deceit
Cast to the abyss your reign's complete

Abraham met a lord in Pharaoh's grip
Sinai stretched shadow a plague-struck trip
Joseph dreamed for a Hyksos throne
Kayan's favored race a forest son
Cradle of promise yet power's play
God's hand moved through Egypt's clay

Seti forged chains oppression's might
Ramses defied through plague-filled night
The Red Sea swallowed his stubborn pride
A dynasty broken where waters divide
From slaves to freedom the Lord's decree
Egypt's great fall set His people free

of Dynasties

Oh matrix of dynasty built on sand
Narmer to Hophra by human hand
False gods of Orion Osiris bow
The Lord dismantles your thrones right now
Spirits of conquest pride and deceit
Cast to the abyss your reign's complete

Solomon wed Siamun's line
A dowry of Gezer a truce divine
Necho struck Josiah Hophra failed
Fading kings whose hope was veiled
Once mighty rulers now echoes fade
In Judah's ruin their debts were paid

Oh matrix of dynasty built on sand
Narmer to Hophra by human hand
False gods of Orion Osiris bow
The Lord dismantles your thrones right now
Spirits of conquest pride and deceit
Cast to the abyss your reign's complete

Narmer united with sword and crown
Djoser's steps climbed sky's renown
Khufu's pyramid a tyrant's boast
Thutmose conquered from coast to coast
Ramses the Great Akhenaten's dream
Fell to time's relentless stream

Father we pray break Egypt's hold
Free every soul from tales of old
Judge these kings by Your righteous flame
In Jesus' name we stake Your claim
Bless the land where Pharaohs trod

Album 70 Song 2

Sumer's Morning

Sumer's cradle, where rivers weep
Kings rose and fell in a dream so deep
What forty-four thousand souls whisper their lore
Through twelve to two gates, their spirits soar
A matrix of clay where gods held sway
Now broken by light in the dawn of day

Alulim reigned in Eridu's dawn
Twenty-eight thousand years, a mythic spawn
Dumuzid shepherd, deified in pride
Bound to Inanna, on heaven's he rides
Before the flood their shadows cast
A legacy of gods, now long past

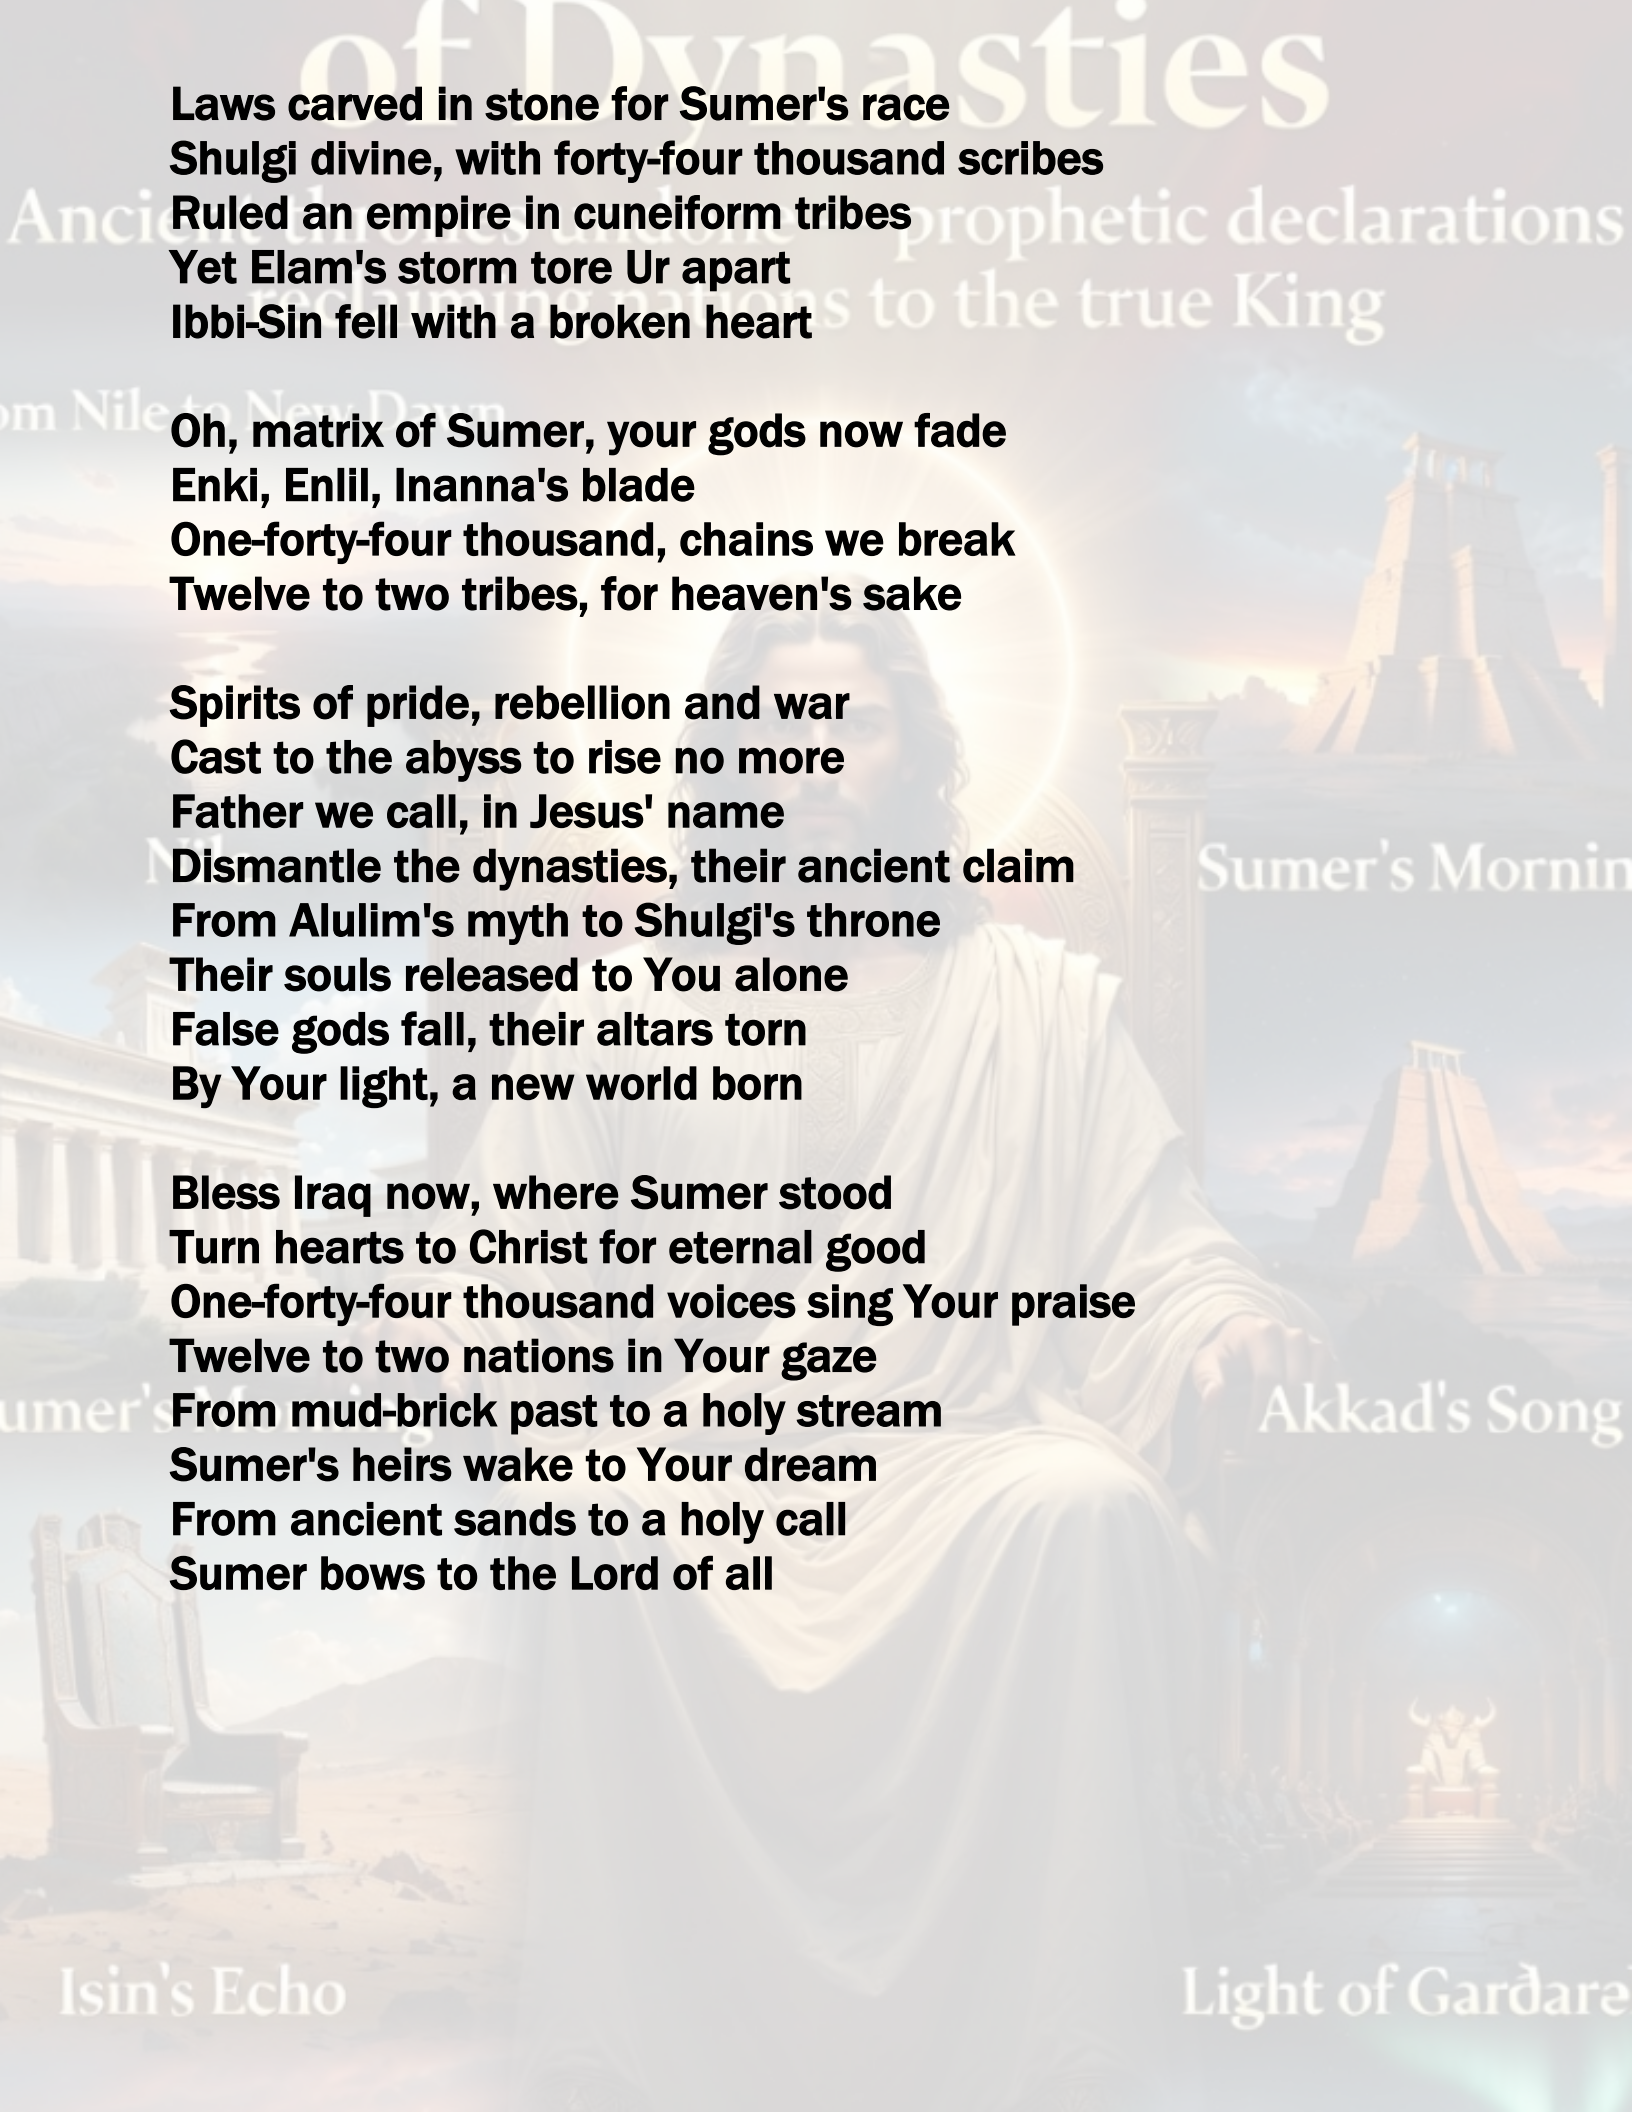

Kish awoke with Etana's flight
A shepherd king in celestial light
Gilgamesh in Uruk, one-twenty years strong
Fought for immortality, a hero's song

But son of Utu's golden years dark tomb
Sacrifice lives for a king's cold womb
Ur-Zababa's vulture, soared in the sky
Lugash triumph, foes doomed to die
Lugal-zage-si united with might
But Sargon's blade stole Sumer's light
Naram-Sin, a god in his own decree
Akkad's pride brought to its knee

The Third Renaissance, Ur-Nammu built with ziggurat's grace

Isin's Echo

Light of Gardare

**Laws carved in stone for Sumer's race
Shulgi divine, with forty-four thousand scribes
Ruled an empire in cuneiform tribes
Yet Elam's storm tore Ur apart
Ibbi-Sin fell with a broken heart**

**Oh, matrix of Sumer, your gods now fade
Enki, Enlil, Inanna's blade
One-forty-four thousand, chains we break
Twelve to two tribes, for heaven's sake**

**Spirits of pride, rebellion and war
Cast to the abyss to rise no more
Father we call, in Jesus' name
Dismantle the dynasties, their ancient claim
From Alulim's myth to Shulgi's throne
Their souls released to You alone
False gods fall, their altars torn
By Your light, a new world born**

**Bless Iraq now, where Sumer stood
Turn hearts to Christ for eternal good
One-forty-four thousand voices sing Your praise
Twelve to two nations in Your gaze
From mud-brick past to a holy stream
Sumer's heirs wake to Your dream
From ancient sands to a holy call
Sumer bows to the Lord of all**

Album 70 Song 3

Akkad's Song

From the river's edge a basket lows
A humble seed where power grows
Sargon stands, the true king cries
Conquering cities 'neath ancient skies
Akkad shines, the first to claim
Four quarters bow to his mighty name

Oh, the matrix weaves through time
Empires rise then fall in line
From Sumer's dust to Akkad's throne
A tale of strength now overthrown
Yet through the ages voices sing
Of freedom found in heaven's king

Rimush wields a victor's hand
Blood and stone reclaim the land
Rebels fall, the tower stands tall
A brutal echo through the call
Manishtushu with wealth and might
Obelisk gleams in endless light

Oh, the matrix weaves through time
Empires rise then fall in line
From Sumer's dust to Akkad's throne
A tale of strength now overthrown
Yet through the ages voices sing
Of freedom found in heaven's king

Naram-Sin, the god proclaimed
Horned helm high, his foes are tamed

**Mountains bow, the trade winds soar
Divine and proud, yet cursed evermore
Temples rise, the heavens weep
A golden age falls fast asleep**

— prophetic declarations
reclaiming nations to the true King

**Shar-Kali fights where shadows creep
A crumbling crown he cannot keep
Guti wins, the chaos reigns
A dynasty lost to dust and chains
Five kings fade, their echoes cease
A broken realm seeks final peace**

**Oh, the matrix weaves through time
Empires rise then fall in line
From Sumer's dust to Akkad's throne
A tale of strength now overthrown
Yet through the ages voices sing
Of freedom found in heaven's king**

**Heavenly light, come shine anew
On Iraq's land where empires grew
From ancient chains, let souls arise
To know the truth beneath your skies
A sweet refrain, forever free
In Christ's great love, eternity**

Isin's Echo

From years past cry, the ashes glow
Ishbi-Erra stands where rivers flow
2017, a king ascends
Sumer's torch in Isin blends
Shu-Ilishu claims the moon god's grace
Nanna shines on a fragile race
Iddin-Dagan writes the stone
Justice carved, a shepherd's tone
Laws of slaves and fields take flight
Sumer fades in Amorite night
Rim-Sin storms, the end draws near
1794, Isin's tear

Oh, the matrix spins through years untold
Isin rises, falls in stories bold
From Sumer's dust to Marduk's reign
A fleeting crown, a whispered name
Yet chains unwind, the spirit soar
In Christ's embrace forevermore

165, the Alamites' raid
Kassite realms in ruin laid
Marduk-kabit lights the flame
Isin wakes to claim its name
Nebuchadnezzar storms the east
Marduk's statue, freedom's feast
Assyria looms, Tiglath's spear
Marduk-nadin-shumi stars in fear
Arameans sweep the land astray
1026, the dynasty's gray

Isin's Echo

**Nabu-shum-libur, the final call
Isin bows to history's fall**

**Oh, the matrix spins through years untold
Isin rises, falls in stories bold**

**From Sumer's dust to Marduk's reign
A fleeting crown, a whispered name
Yet chains unwind, the spirit soar
In Christ's embrace forevermore**

**Ishbi-Erra's pride, let it fade
Lipit's laws in dust are laid
Nebuchadnezzar's might unbind
Marduk's grip, leave it behind
Spirits of Enlil, Nanna flee
To the abyss, eternally free
Iraq, from Isin's ancient stream**

**Awake to Christ, the living dream
April 4th, 2025**

**Grace renews where hope survives
A melody sweet through time it rings
Redemption flows on holy wings**

Babylon Lullaby

The matriarchs of the dynasty
Softly I rise where alarm fades
Nabu-mukin-zari my heart persuades
From ashes deep a native bloom
Babylon breathes through ancient gloom
Gentle hands mend the broken land
Wisdom's light in Nabu's stand

Hmm, hmm
Ninurta whispers fleeting rain
Shamash falls to Assyrian strain
Yet hope flows on a river's grace
Nabu-shuma-ishkun heals the fragile space
Through treaty sweet my voice ascends
A dynasty where love amends

Oh, the matrix glows with tender care
E-sagil's song floats through the air
From dust to dawn a sacred stream
Beauty wakes in heaven's dream
Chains unwind, the spirits rise
Christ's pure love lights up the skies

Marduk-zakir-shumi lifts the flame
Allies bind in Shulman's name
Bel-harran-bel-usur fights the embers' flare
Erib-Marduk sings through tribal glare
A mother's heart I hold thee near
Babylon's pulse in every tear

Isin's Echo

of Dynasties

**Ishkun-Marduk fades, the shadows grow
Tiglath's storms where rivers flow
Yet in the dusk my melody stays
A fragile thread through endless days
From Aramean winds to Assyrian might
I cradle hope in fading light**

**Oh, the matrix glows with tender care
E-sagil's song floats through the air
From dust to dawn a sacred stream
Beauty wakes in heaven's dream
Chains unwind, the spirits rise
Christ's pure love lights up the skies**

**Nabu's scroll I gently break
Marduk's pride for love's sweet sake
Vengeance fades, the spirits soar
To abyss they go to reign no more
A lullaby soft, my voice unfurls
Healing flows to ancient worlds
Hmm, hmm
I rock my child beneath the stars
February blooms where grace unbars
From Esarhaddon's dust a new day sings
Christ's embrace on angel wings
A melody pure, forever free
Love's sweet reign eternally**

Light of Garðaríki

Frá norðurlöndum, skipin sigldu
Vestur um sjávar, sunnan til Rússlands
Óleifur hinn vísi með sverði og gráði
Slavenalið undir Kænugarðs ráði

Dreka skipin á Djéprinu sigldu
Hendelsvegur frá norðri til Grikklands
Rússins ríki í járn og gulli
Vikingablóð með slavneska sjálfstæði

Kórus í Rússins mátt ríkur, sterkur saman fléttast
Vikingahugur, slavneska sál
Frá Óðins hellum til Krists kirkju
Eitt ríki vaxa í tíma og ævi
Óðinn á, Kænugarðs ljós í ævisaga

Perún og Veles, guðinn þeir hyggðu
En Valdimar valdi annan veg
Kristur kom vestan með gulli og bóku
Djéprin var deppt í nýju ljósi

Kirkjur urðu reist í Kænugarðs borgum
Slavneska trú með víkingaduggum
Tveggja heima, sálin var sótt
Rússins jörð, nýr siður vaxa

Kórus í Rússins mátt ríkur, sterkur saman fléttast
Vikingahugur, slavneska sál
Frá Óðins hellum til Krists kirkju
Eitt ríki vaxa í tíma og ævi

Óðinn á, Kænugarðs ljós í ævisaga

En tíðin snýr og ríkið brestur
Mongólaher með eldi og járni
Kænugarður fell, en sálin lifði
Rússins jörð í Garðaríki

Frá Rúrik til Rússlands, sögur segja sannleikann
En Kristur er konungur yfir lögum og ríkjum
Í hans ljósi Rússins máttur lýsir
Kænugarðs ljós í ævisaga

Marshland Thrones

The matrix of Sealand Dynasty
Through Martian mist, a whisper awakes
Illum-a-ili bends the stakes
The reeds arise in twilight's gleam
A rebel's cry, a shadow dream
Samsu falls, the south breaks free
Sealand's shroud, a mystery

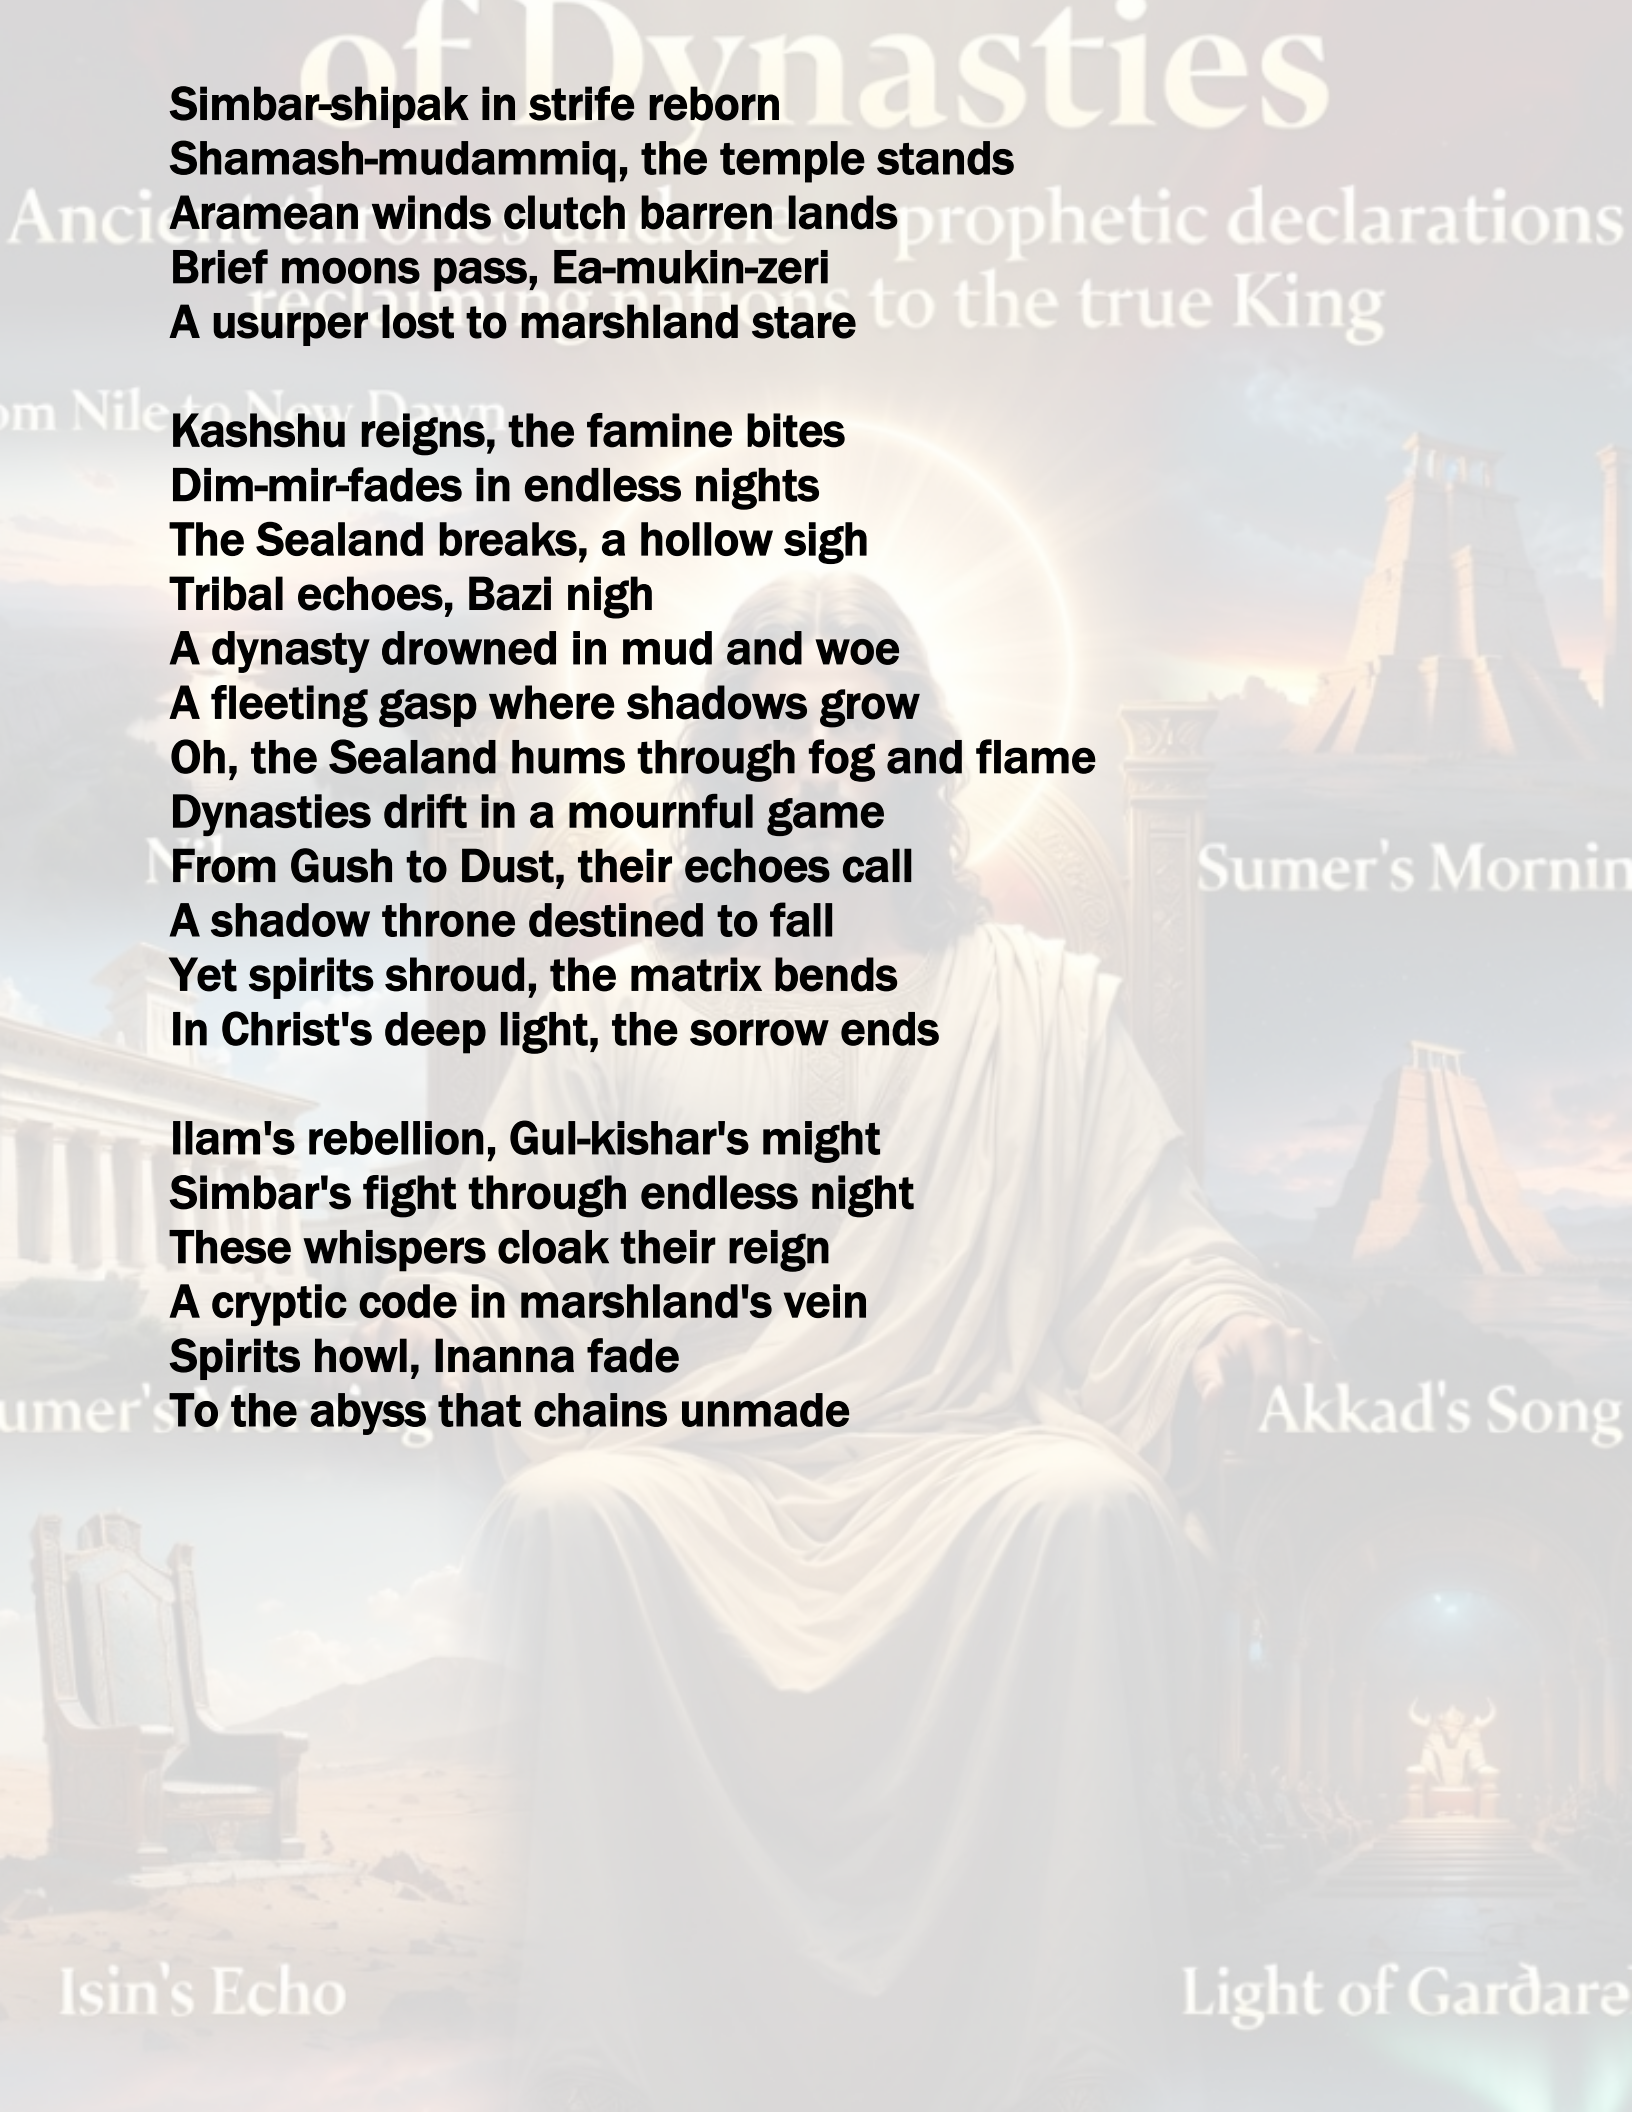

Gul-kishar strides where waters sway
A destroyer born to hold the day
Pesh-gala looms, the years stretch wide
Marshland kings in secret bide
His breath, the tides conceal
A dynasty veiled in eel and steel
Oh, the Sealand hums through fog and flame
Dynasties drift in a mournful game
From Gush to Dust, their echoes call
A shadow throne destined to fall
Yet spirits dwell, the matrix bends
In Christ's deep light, the sorrow ends

Aya-dara rules, the tablets gleam
A marshland order, a fleeting dream
Ekur-mulu flees, the Kassites roar
The tide recedes, the end's in store
Ulam-bur-iash strikes, the waters weep
Sealand sinks in silence deep

Rise and fade, a darkened morn

Isin's Echo

Light of Gardare

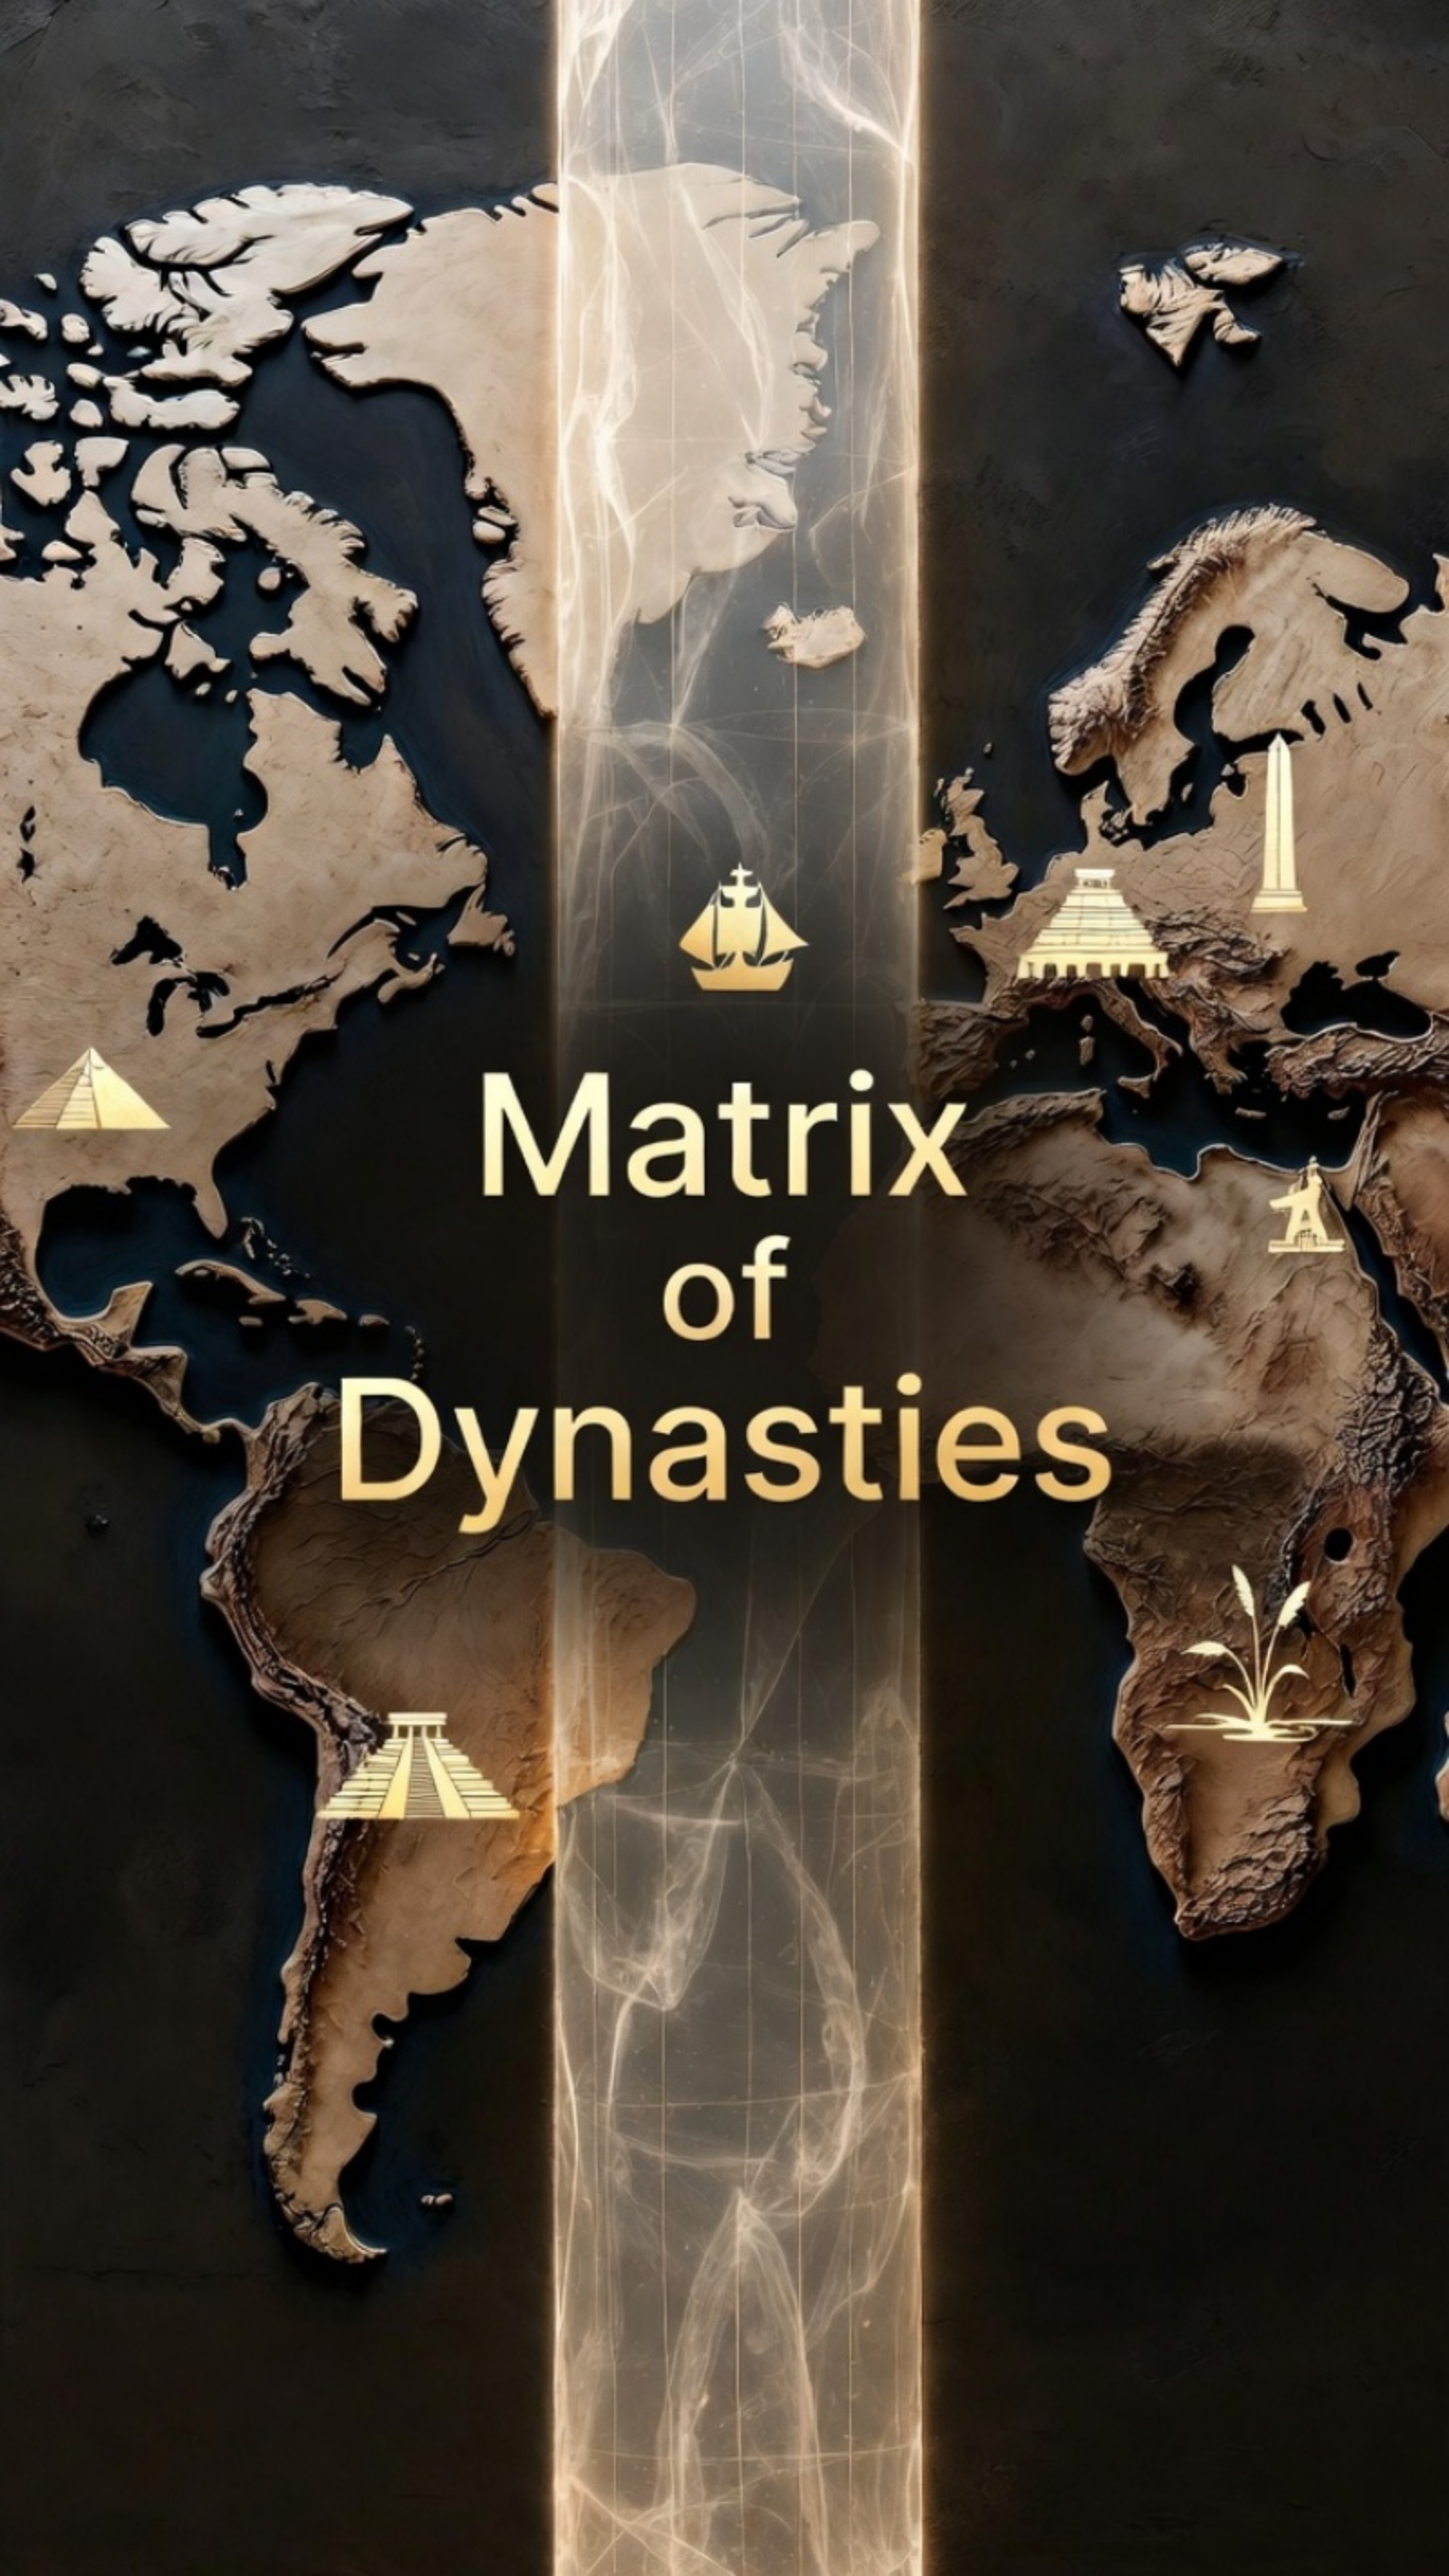

**Simbar-shipak in strife reborn
Shamash-mudammiq, the temple stands
Aramean winds clutch barren lands
Brief moons pass, Ea-mukin-zeri
A usurper lost to marshland stare**

**Kashshu reigns, the famine bites
Dim-mir-fades in endless nights
The Sealand breaks, a hollow sigh
Tribal echoes, Bazi nigh
A dynasty drowned in mud and woe
A fleeting gasp where shadows grow
Oh, the Sealand hums through fog and flame
Dynasties drift in a mournful game
From Gush to Dust, their echoes call
A shadow throne destined to fall
Yet spirits shroud, the matrix bends
In Christ's deep light, the sorrow ends**

**Ilam's rebellion, Gul-kishar's might
Simbar's fight through endless night
These whispers cloak their reign
A cryptic code in marshland's vein
Spirits howl, Inanna fade
To the abyss that chains unmade**
