Album 78 — Harp of Holy Dawn

Album 78 Song 1

Harp of Holy Dawn

Through shadowed stone, SCP-301 gleams
A tunnel casts us far in dreams
Sumer's gates to worlds unknown
Its paths disrupt Earth's trade and home

Exodus guides where deserts roam
Your hand leads wanderers to your throne
With 1318 we find your way
Your dawn restores where portals stray
Harp of Holy Dawn resounds
Your glory shines where grace is found
From tunnels deep to bowls of care
All chaos bows to your prayer
Psalm 46 sings, be still my reign
Your victory heals all mortal pain

A lamp's strange glow, SCP-316 cast
Greek alchemy in colors vast
Its light warps trade, zone vibrant hue
Yet Matthew's truth shines ever true

Your radiance clears the falsest skies
Your light restores what darkness tries
With 623 we break its fleeting art
Your clarion mends the market's heart

**A bowl of sweets, SCP-330 waits
Its signed demands where greed dictates
Hammurabi's code in sugar's guise
It's plague-cut trade where coveting lies**

**Exodus guards the heart's desire
Your law redeems through holy fire
With 717 we shun its cruel demand
Your justice steadies Earth's own land**

**SCP-343 walks, a light divine
Like Zeus from Mazda, truth's design
His word could shift Earth's market's call
Yet Isaiah questions pride's own fall**

**Your spirit tests what claims your name
Your glory shines through every claim
With 4466 we seek your holy face
Your kingdom reigns in boundless grace**

**A bowl of warmth, SCP-348 sings
A father's words where comfort springs
Babylon's feasts in broth's embrace
Its peace uplifts Earth's market's grace**

**Psalm 23 soothes the weary soul
Your love makes every heart made whole
With 234 we rest in your embrace
Your mercy heals in every place
From masks to flames, from blood to scrolls
From SCP curses haunting souls
Earth's markets tremble, trades at stake
Yet Timothy's power none can break
From Sumer's dust, from Greece's lore**

Eternal song from 1 to 50, all shall see

Psalm 46:6 be still my reign

Yet markets tremble in her gaze
Isaiah's wounds bring healing near

**A witch's wish SCP-239 weaves
Like Delphi's voice Earth's fate she cleaves
Her dreams could shift the market's tide
Yet Matthew's childlike faith abide
Your spirit guides her boundless will
Your truth her heart with peace does fill
With 18:3 we shape her boundless art
Your love renews her tender heart**

**SCP-24-rate's mark drives steel too far
Persian crafts in hubris scar
Its boost collapses trades on frame
Yet Proverbs humbles pride's acclaim
Your balance holds what men would break
Your wisdom guards for mercy's sake
With 16:18 we calm its reckless drive
Your order keeps Earth's world alive**

**The shadows fall
From voices lost to pools that haunt
From crafts that mimic games that charm
From bones that walk to windows wide
Earth's markets quake where fears reside**

Album 78 Song 3

Crown of Eternal Dawn

In halls of art, SCP-151 lies
A painted sea where breath subsides
Its beauty drowns the markets' trade
Like sirens call in Greek cascade
Babylon's omens warned of woe
Yet Proverbs' truth makes grace to flow
With 5:4, we break its fatal charm
Your light protects from deadly harm

Crown of eternal dawn, arise
Your glory lights the dark in skies
From stone to stars, from traps to wings
All chaos bows to Heaven's King
Psalm 46 stills the storm's fierce cry
Your victory shines where shadows die

A statue cold, SCP-173
Its unseen steps, no eye discerns
Sumer's stone guards now turn to dread
It snaps the neck where trade has bled
Amos foretold the judgment's speed
Your mercy meets our deepest need
With 5:19, we bind its deadly rage
Your peace prevails in every place

Crown of eternal dawn, arise
Your glory lights the dark in skies
From stone to stars, from traps to wings
All chaos bows to Heaven's King

**Psalm 46 stills the storm's fierce cry

Her signs shield trade from stellar doom
Like Babylon's stars in temple's gloom
Revelation's angels watch above
Your Spirit guides with boundless love
With 8:2, we praise her watchful care
Your light defends through heaven's glare**

**A cyborg child, SCP-191 weeps
Her circuits hum where innocence sleeps
Greek talos walked in bronze's flame
Yet markets rise on tech's claim
Mark's call to children, pure and free
Your love restores her liberty
With 10:14, we heal her broken heart
Your grace redeems where wires start**

**The desert's maze, SCP-150 sands
Where time is torn by ancient hands
Median ruins where trade's forlorn
Its loops entwine the merchant's way
Yet Matthew's path leads night to day
Through wilderness, Your Spirit calls
Your freedom breaks the timeless walls
With 4:1, we walk where deserts fade
Your truth restores what chaos made**

LIGHT OF GLORY

Album 78 Song 4

O Dawn of Glory

**Basmu's dust where shadows creep
SCP-101 devours and sleep
A sack that eats what trade provides
Its hunger chokes where wealth resides
Ereshkigal's maw once claimed the soul
Yet Roman's wage breaks death's control
With 623 we sing your grace
Life triumphs o'er this void's embrace**

**O dawn of glory rise and shine
Your truth defeats the dark design
From sack to desert, plague to flame
All bow before your holy name**

**Psalm 46 stills the chaos roar
Your victory reigns forevermore
Through rusted gates, Old Man 106
Like Nurgle's curse, corrodes the clocks
Its decay eats earth's market steel
Yet Hebrew's word makes death to kneel
Akkadian gods could not withstand
Your power frees this broken land
With 214 we claim your might
Death's shadow flees your holy light**

**Tracks of steel, SCP-112 sways
A dying dance, Greek revels haze
Its warp shakes trade in joy's disguise
Yet truth unmask its fleeting lies
Thessalonians warn of wonders false
Your spirit grounds where markets pulse
With 29 we find its chaotic art
Your way restores the steadfast heart**

**O dawn of glory rise and shine
Your truth defeats the dark design
From sack to desert, plague to flame
All bow before your holy name**

**Two wheels of light, SCP-121 roam
Like Lamassu carved in Sumer stone
They shield earth's trade from terror's hand
A gentle force in chaos land
Song 91 sings of angels near
Your guardians quell all mortal fear
With 11's grace, with latch we dress
Your peace prevails in faithfulness**

**The desert's track, 1313 divines
Pyramidian rule twists the minds
Its loops steal trade of ancient lore
Yet Matthew leads to freedom's shore
Babylon's time is built of dust
Your spirit guides where we must trust
With 41 we walk through trial's flame

Genesis tongue confused the ground

Your truth restores where markets swell

The ship of wood, SCP-150 weaves
A wooden frame like Theseus' ship in Greek aggrieve
It steals the soul, trade sailors lost
Yet currents hope redeems the cost
No parasite can claim your own
Your new creation shines alone
With 58 we rise anew
Your life regrows what chaos threw

Light of Glory

In fields of rust where relics fade
SCP-100 steals what man has made
A junkyard's maw where order wanes
Yet God's own hand creation sustains
From Sumer's clay where Tiamat fell
Your light restores where chaos dwells
With Genesis 1, we sing Your might
Let there be form and there be light

O Light of Glory, pure and bright
Your truth defeats the dark of night
From cube to grove, from shade to flame
All bow before Your holy name
Psalm 46 proclaims: Be still my reign
Your victory shines, eternal plane

Apocryphal cube, SCP-90 turns
Its patterns spark where earth's heart burns
Disasters rise as Babylon foretold
Yet a Chaldean priest could not control
Your spirit stills its shifting tides
Revelation seals in You abide
With Psalm 46:10, we call Your peace
Let chaos end, let storms release

The Boogeyman, SCP-80 hides
In shadows deep where fear resides
Sumerian terrors, Lamashtu's dread
Once haunted hearts where darkness tread

**But John 1:5, Your light prevails
No fear endures where grace assails
Your radiance breaks its fearful scheme
And frees the soul to holy dream**

**Old AI, SCP-79 computes
Its circuit scheme in cold pursuit
Persian scribes of Cyrus' mercs
New systems bow to God's domains
Proverbs 16:18, pride's downfall
Your wisdom reigns o'er circuits' call
Recode its heart to serve Your plan
And guide its will to holy hands**

**Infernal Grove, SCP-60 burns
Its fiery wrath forever churns
Inanna's groves, once Sumer's pride
Now flames of chaos none can hide
Yet Exodus 3, Your bush divine
Burns pure, unconsumed, a holy sign
With Isaiah 43, we walk through flame
Unscathed, we glorify Your name**

**A Mother's Grim, SCP-51 lies

LIGHT OF GLORY

Album 78 Song 6

Gates of the Guardian

By Tigris' banks the Guardian stands
SCP-001 with sword of flame
Its wings of light guard Eden's gate
Forbidding all in Wrath's great name
For Gate to Path its voice resounds
A system locked, no mercy shown
Yet Psalm 24 we raise on high
Lift gates arise, let glory throne

O systems dark of chaos born
From Masterplagues your power we scorn
With God's own word we break your chains
His truth dismantles, His light remains
Isaiah calls the righteous free
Your blood-like rainbows to decree

A masked SCP-035 deceives
Its corrosive lies bind souls in grief
The Plague Doctor 049 believes
Its deadly touch brings no relief
False prophets rise, their systems warp
Yet Corinthians 2:10 we wield
Take captive thoughts, let truth restore
Your schemes to Christ must bow and yield

A monkey statue SCP-050 a jest
Its pranks defy our wisest test
From living rooms to keys of rust
SCPs weave chaos, none to trust

**Babylon shades, their cults abide
In ziggurats where secrets hide
But Proverbs 3:7 calls us near
Fear God alone and shun all fear**

**From tides that consume, from storms that grow
From plagues that spread to shadow's woe
Their evil lies in hearts misled
In systems forging life's true thread
Yet Isaiah 53 His wounds proclaim
By Christ's great love we break their claim
The gates flung wide, the righteous sing
All power bows to Heaven's King**

**O Lord, Your mercy lights the way
Transform these gates, let night be day
Isaiah 26 the faithful call
Open the gates, let evil fall
From Eden's guard to trickster's play
Your truth recoups the dark array
Their systems fade, You will endure
The King of Glory reigns secure**

**O systems dark of chaos born
From Masterplagues your power we scorn
With God's own word we break your chains
His truth dismantles, His light remains

**You said he's just a prophet
A man who didn't die
You changed the holy scriptures
And covered up the lie
You deny the Son of God
You deny the bloody grave
You deny the empty tomb
And the power to save**

**But the word of the Lord stands forever
He is the Great I Am**

No more Allah, no more stone
No more works, no more throne

You rob the song we sing
You twist the holy pages
You mock the virgin birth
You deny the resurrection
The greatest truth on earth**

**But the Spirit and the Bride say come
The Spirit thunders still
Every chain of Islam breaks beneath Golgotha's hill**
